

# 2001 Recreational Fishing Regulations Summary

- Great Lakes Fishing Opportunities
- New Full Colour Fish Identification Charts
- Expansion of Ontario's Fish Stocking Program
- MNR's Fishing Website: [www.mnr.gov.on.ca/MNR/fishing](http://www.mnr.gov.on.ca/MNR/fishing)

**New Muskie  
Regulations**

On Lac Seul near Ear Falls, Ontario

Please excuse us, but up here in Northern Ontario we feel that the fishing is So beautiful it's hard to share.

To spend a single day of great fishing in each of our 300,000 waterways would take about seven lifetimes. Besides, who could afford the bait?

Dear people of NORTHERN ONTARIO,

*I can understand why you'd be reluctant to tell me more about visiting your wonderfully invigorating part of the world. It's so beautiful, I would find it hard to share too.*

*Nevertheless, I would like to know more about booking a vacation at one of your fishing resorts or outposts.*

*I feel I am worthy, so I will call **1-800-947-8066** or visit your website at **[www.GetNorth.com](http://www.GetNorth.com)***

*So beautiful it's hard to share.*

Box 315, 1100C Memorial Ave., Thunder Bay, ON, Canada P7B 4A3

Proud Sponsors of the Northern Ontario Fishing Experience

**If you simply have to find out more, please note that we'll be attending the following shows:**

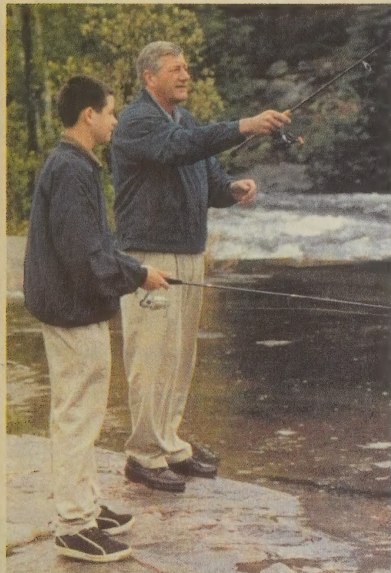

Chicagoland Fishing, Hunting, Travel & Outdoors Show, Chicago-Jan. 17-21, 2001 • Harrisburg Eastern Sports, Camping, Travel & Outdoor Show, Harrisburg, PA-Feb. 5-11, 2001 • Toronto 9th Annual Spring Fishing Show, Toronto-Feb. 15-18, 2001 • Cleveland American & Canadian Sport, Travel & Outdoor Show, Cleveland-Mar. 17-25, 2001 • Minneapolis Northwest Sportshow, Minneapolis-Mar. 16-25, 2001

**Ontario**

# Keeping the Tradition

There's nothing quite like it ... is there? The rush of water. The whistle of your fishing line. The splash of your lure, 30 feet offshore.

But for me, fishing is about more than fish.

It's about spending time outdoors, enjoying the fresh air and passing on family traditions.

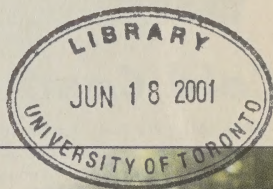

My father and I used to fish together. He taught me how to bait a hook and - more importantly - he taught me to respect nature. Years later, I hope to teach the same thing to my two sons, Mike Jr. and Jeffrey.

I believe Ontario offers some of the best fishing in the world. And I'm proud of what our government is doing to make sure we maintain our proud fishing heritage. Through Ontario's Living Legacy program, we're protecting our wilderness, our rivers and we're creating more parks. By working hard today to conserve our fish, wildlife and their habitats, we can ensure that our children - and our children's children - will be able to enjoy our rich natural resources many years from now.

If you're like me, you've learned a lot while you've been out fishing. Next time you go, I hope you'll bring a young person along with you and help pass on this proud tradition to the next generation.

A handwritten signature in black ink that reads "Mike Harris".

Mike Harris  
Premier of Ontario

## Remember when...

*Remember the very first time you caught a fish?*

*Chances are, it was also the first time you went camping.*

Casting a line for lake trout, bass, perch or walleye, is a popular activity in Ontario Parks. Through Ontario's Living Legacy, more park lands are being set aside for protection and outdoor recreation. Now there will be even more fishing opportunities for future generations to enjoy.

Bring the family to any one of our more than 270 provincial parks and catch your next meal from some of the finest waters anywhere. Borrow a fully rigged rod and reel through the Ontario Federation of Anglers and Hunters Tackle Share® program offered at many provincial parks.

For more details visit [www.OntarioParks.com](http://www.OntarioParks.com) or call 1 800-ONTARIO for your copy of the 2001 Ontario Parks Guide. To find the OFAH Tackle Share® program nearest to you, visit [www.ofah.org](http://www.ofah.org) or call (705) 748-6324.

Call 1 888 ONT-PARK or check out our Website for camping reservations.

Living Legacy*

# SHOP FOR NATURE

## Support Ontario's Fish and Wildlife Management

Every time you buy one of these gift items, you are supporting the protection and management of Ontario's natural resources. All proceeds from the sale of these posters and calendar go towards fish and wildlife management in Ontario.

### 2001 Calendar for Anglers and Hunters

The Ministry of Natural Resources has created a calendar for 2001, that provides helpful information on fishing and hunting seasons, moose and deer draw deadlines and important MNR phone numbers together in one handy spot. Hang it on your fridge, at the hunt camp, in the den or at the cottage – anywhere you need a quick fishing and hunting reference. Our fish and wildlife calendar is a perfect gift for every angler, hunter and outdoor enthusiast in your family.

Quantities are limited so please order now.

*Orders for the 2002 Calendar will be accepted starting August 2001.*

**\$12.00** each (taxes and shipping extra)

### Cold Comfort

This (21" x 34"), full-colour illustration depicts typical sportfish and 17 other kinds of animal life associated with a natural Ontario coldwater stream.

**\$12.95** each (taxes and shipping extra)

### Own a part of Ontario's Living Legacy

## The Living Coast

This large (21" x 34"), full-colour poster brings a natural reflection of the **Great Lakes Heritage Coast** into your home or cottage. It reveals links between the shore and the nearshore waters through a web of interactions represented by more than 25 kinds of animal life found along the Coast.

Buy one for yourself, or your favourite angler!

**\$12.95** each (taxes and shipping extra)

To place your order, simply call our toll free number at **1-800-667-1940**

# FISHING ONTARIO

Ontario is one of the world's premier fishing destinations. The tremendous variety and abundance of fishing opportunities found here are the envy of anglers throughout North America. Whether you enjoy jigging for walleye, down-rigging for Great Lakes salmon, ice fishing for lake trout or just dropping a line off your dock, Ontario's got something for every angler.

The government of Ontario strongly supports the province's proud angling traditions. In fact, we are committed to introducing heritage fishing and hunting legislation that will recognize the important role that these activities have played in the history of Ontario.

All of us can help keep Ontario's fish population healthy and thriving. When you buy a fishing licence, you support the future of fishing in the province. Every dollar that is spent on a fishing or hunting licence goes into a Special Purpose Account that is used specifically for managing fish and wildlife populations and their habitat. The Ontario Fish and Wildlife Advisory Board provides advice to me on the best way to use these funds.

As part of *Ontario's Living Legacy*, additional funding has been announced to conserve our fish and wildlife populations. This will be used on such programs as fish stocking, habitat rehabilitation, research and enforcement support. It builds on the three-year Fish and Wildlife Protection and Enhancement Fund that ended in 2000, and is in addition to the over \$70 million allocated this year for fish and wildlife management across Ontario.

You will notice a number of changes in this year's Recreational Fishing Regulations Summary. One of the most significant is the introduction of new size limits for muskellunge. Found in approximately 400 bodies of water in Ontario, the muskellunge, graphically illustrated on the cover, is a highly prized and valued sport fish. By simplifying the size limits for muskie, we are looking to ensure self-sustaining populations.

Every five years, the federal government undertakes the National Recreational Fishing Survey, in which Ontario participates. Should you be one of the 8,000 anglers selected at random to receive the survey this year, I urge you to complete and

return it as soon as possible. It is an important tool evaluating fishing effort, harvest, and the investment for expenditures associated with angling.

By following the fishing regulations and advice found in the Summary, you can do your part in helping to keep Ontario's recreational fishery sustainable and strong.

Fish Ontario, and have a great 2001 season.

John C. Snobelen  
Minister of Natural Resources

## IMPORTANT NOTICE

This booklet is prepared for convenience only. It summarizes legislation from the *Fish and Wildlife Conservation Act* and regulations under the *Fish and Wildlife Conservation Act*, as well as the *Federal Fisheries Act* and the Ontario Fishery Regulations. Some of the regulations referred to in this summary were in the final stages of federal approval at the time of printing and will not be

enforced until they come into effect. For further information on the status of specific regulations, please contact a local Ministry of Natural Resources office. For more information about obtaining copies of these Acts and Regulations contact the Ministry of Natural Resources, Fish and Wildlife Branch, Fisheries Section, P.O. Box 7000, Peterborough, Ontario K9J 8M5.

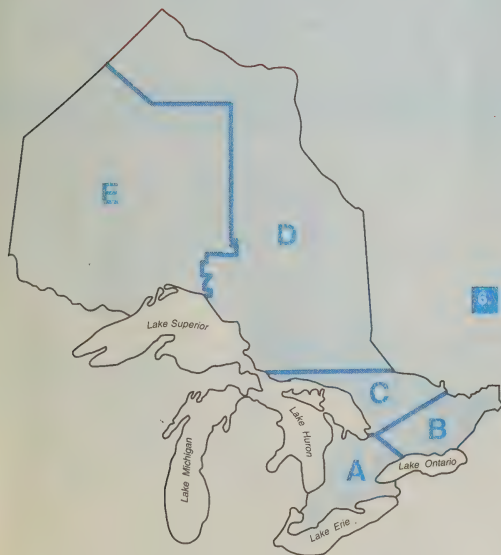

# HOW TO USE THIS SUMMARY

To help you quickly find the fishing information you need, we have divided Ontario into 5 regions, labeled A, B, C, D, and E (below). All information for a region is grouped together.

Each region is broken into fishing divisions. The General Regulations for each division are found in the Division/Species Table following the region map. Once you have read the General Regulations, be sure to check for any Exceptions to the General Regulations which may apply to the waterbody you will be fishing.

Many regions feature additional fishing opportunities that you won't want to miss. These special opportunities are listed as Additional Fishing Opportunities following the region map.

**PLEASE NOTE THAT NEW REGULATIONS AND CHANGES FOR THIS YEAR ARE PRINTED IN RED.**

In order to ensure you are complying with the Ontario Fishery Regulations, please follow these easy step-by-step directions.

1. Ensure that you have the right kind of fishing licence (pages 1-4).
2. Understand and comply at all times with the General Fishing Regulations (pages 5-12).
3. Refer to the area map where you plan to fish:
 

Southwestern Ontario .....	Map A .....	Page 15
Southeastern Ontario .....	Map B .....	Page 25
Central Ontario .....	Map C .....	Page 34
Northeastern Ontario .....	Map D .....	Page 51
Northwestern Ontario .....	Map E .....	Page 73
4. Determine which division you plan to fish in.
5. Once you have determined the division you plan to fish in and the species you wish to fish for, you **MUST**:
  - Refer to the Division/Species Table for that map area to ensure that you are:
    - fishing during an open season
    - complying with the catch, possession, and size limits
  - AND**
  - Check the "Exceptions to the General Regulations" (following the Division/Species Table) for the body of water or general area in which you will be fishing and comply with the exceptions that are shown. If the body of water in which you will be fishing is not listed in the exceptions there are no additional restrictions.
6. If you are not sure whether you can fish at a certain time and place, or if you have any questions about the regulations, contact the local Ministry of Natural Resources office. See listings on page 91.
7. Also don't forget to review the "Additional Fishing Opportunities" in each map area to make the most of your fishing experience.

## Message from the Chair of the Ontario Fish and Wildlife Advisory Board

As advisors to the Minister of Natural Resources, the members of the Ontario Fish and Wildlife Advisory Board are proud to represent the anglers and hunters of this province in the sustainable management of our precious natural resources. Our goal has always been to find a balance that allows all user groups to enjoy the

The Board has promoted increased fish stocking, the setting aside of more dollars for enforcement, and establishment of new working relationships, commercial fishermen, and the provincial bait association, as well as a number of other initiatives. The Board has been a strong supporter of the Community Fisheries and Wildlife Involvement Program (CFWIP), and through the previous chair, Pat Kennedy, was able to secure more funds to assist larger and more complex volunteer based enhancement projects across Ontario. We have also been instrumental in improving marketing, licensing and customer service efforts in the Fish and Wildlife program.

Fishing is an important part of our heritage, and we are fortunate to live in a province that offers some of the best angling opportunities in the world. The Ontario Fish and Wildlife Advisory Board plays an important role in ensuring wise fisheries management for the future.

We look forward to working with you.

Sandy Dickson  
Chair of the Ontario Fish and Wildlife Advisory Board

resources that the province has to offer, while protecting them for future generations.

With the introduction of the Special Purpose Account and the establishment of the Ontario Fish and Wildlife Advisory Board in 1995, the Ontario Government made a commitment to the angling community. Your fishing licence dollars go directly into the Fish and Wildlife Special Purpose Account - which is dedicated solely to fish and wildlife management.

As a Board member from northwestern Ontario, I am proud to be the chair of an advisory body that is making a difference. Through public consultation, stakeholder meetings, and town hall sessions, the advisory board is ensuring that the concerns of resource users are being heard. Taking care of our fish and wildlife resources is a huge job which can only be done successfully through teamwork, constant communication and information sharing among resource management professionals and all user groups.

## MANAGING ONTARIO'S MUSKELLUNGE

Ontario is home to some of the most exceptional muskellunge fishing in the world. With more than 300 lakes and almost 100 rivers supporting muskellunge populations, Ontario offers an incredible diversity of opportunities and experiences, including the chance to top Ontario's current record of 29.5 kg (65 pounds).

A number of new size limit regulations come into effect for the 2001 fishing season. New minimum size limit regulations are based on biological characteristics of individual muskellunge populations, with the aim of minimizing the number of different size limit regulations in the province. All muskellunge will be protected until they reach the age of seven years and have had the opportunity to spawn at least twice. This corresponds to a 36" (91.4 cm) minimum size limit. Some other waters, where muskellunge have the potential to

grow to extremely large sizes, will be managed to provide "trophy" or "record class" fishing. Minimum size limits on these waters may be 40" (101.6 cm), 44" (111.8 cm), 48" (121.9 cm) or 54" (137.2 cm). New regulations for some waters in southcentral Ontario, will come into effect in 2002.

The cooperation and assistance of anglers is crucial to ensuring our muskellunge are managed effectively. We urge you to practice catch-and-release angling for muskellunge.

For those fish which are harvested we would ask that biological information, including the removal of the "cleithrum," be collected and submitted. Information provided by anglers will be used to determine the most appropriate size limit regulation for a particular waterbody. If you plan to fish for muskellunge, contact your local MNR office for an information package on how you can help.

# Fishing Licence Information for Residents of Ontario & Canada

Most Canadian residents need a licence to fish in Ontario. Fishing licences are sold by more than 2,000 licence issuers, with all sales revenue used to manage the resource. If you are fishing in Ontario for the first time, we welcome you and offer this information to guide you through the purchase of your first Outdoors Card and fishing licence tag. If your Outdoors Card has expired, don't wait — order your new card and licence tags today. For information on non-resident licence requirements (see page 4).

## What is an Outdoors Card?

An Outdoors Card is a plastic, wallet-sized, identification card to which your Ontario fishing licence tag is affixed. It acts as a durable carrier for your licence tag for three calendar years.

## Who needs an Outdoors Card to fish in Ontario?

You need an Ontario-issued Outdoors Card and a fishing licence tag to fish in Ontario if:

- you are a resident of Canada;  
**AND**
- you are at least 18 years old but have not reached your 65th birthday.

Certain exemptions apply if you are a resident of Canada and are disabled (see page 2).

People who are exempt from obtaining an Outdoors Card and fishing licence tag have the same rights and responsibilities as those who have purchased a fishing licence and must abide by all regulations including catch and possession limits.

Certain exemptions may also apply if you belong to an Ontario Aboriginal community (see page 2).

## Is an Outdoors Card a fishing licence?

No. A complete and valid licence to fish consists of an Outdoors Card **plus** a fishing licence tag. If you do not have a current Outdoors Card when you buy your fishing licence, a temporary paper licence enables you to fish until you receive your Outdoors Card in the mail.

## How do I get an Outdoors Card if I have never had one before?

A resident of Canada who has never had an Outdoors Card may apply for an Outdoors Card on go fishing in one of several ways. The way you select depends on how soon you want to go fishing.

**If you do not intend to go fishing right away** you can submit an Outdoors Card application and payment to the Outdoors Card Centre through the mail. You will receive the card and fishing licence tag you selected in approximately four to six weeks.

You can get an Outdoors Card application by calling **1-800-387-7011** from anywhere in Canada. The application will be mailed to you.

**If you want to fish right away**, the following temporary paper licences and Outdoors Card Applications are available from more than 2,000 licence issuers across the province:

- Resident Sport Fishing Licence;  
**AND**
- Resident Conservation Fishing Licence  
(both licences include an Outdoors Card Application).

These temporary paper licences are effective immediately upon purchase, and are valid for fishing until the end of the calendar year.

The fee for either of these licences includes the cost of the three-year Outdoors Card. You will automatically be mailed the plastic three-year Outdoors Card bearing your one-year fishing licence tag by the end of the calendar year.

## My Outdoors Card has expired. How do I renew it?

The date on which your Outdoors Card expires is shown on the front of your card (centre right). To avoid any lapse in your privileges, it is recommended that you renew your card as soon as you receive your renewal package. This package is automatically mailed to you in the fall of the year in which your card expires.

You may renew your Outdoors Card in any of five ways:

1. in Ontario, by using the toll-free automated telephone system and your VISA, MasterCard or **American Express credit card**. **This is the fastest and easiest way to renew.** Be sure to have your Outdoors Card number on hand when you call. Call **1-800-288-1155**. Please allow two to three weeks for your card to reach you.
2. in Canada, by connecting to the Internet at <http://outdoorscard.mnr.stores.gov.on.ca> and using your VISA, MasterCard or American Express credit card. You will need your Outdoors Card number and date of birth to complete this transaction. Please allow two to three weeks for your card to reach you.
3. in Ontario, at any of 60 ServiceOntario Kiosk locations. ServiceOntario Kiosks accept VISA, MasterCard and **American Express** transactions as well as bank debit cards. You will need your Outdoors Card number when you renew. Please allow two to three weeks for your card to reach you.
4. from anywhere in Canada, by mail, using the renewal package sent to you in the fall of the year in which your Outdoors Card expires. For the convenience of Outdoors Card holders, a renewal package is sent automatically so you can renew before your current card expires. Payment may be made by VISA, MasterCard, **American Express**, cheque or money order. You will have your card four to six weeks after you submit your renewal application. If you have misplaced your package, call **1-800-387-7011** for a replacement.
5. in Ontario, by purchasing a Resident Sport Fishing Licence and Outdoors Card Application **OR** a Resident Conservation Fishing Licence and Outdoors Card Application from a licence issuer. The fee for either of these includes the cost of the one-year fishing licence and the three-year Outdoors Card. You will automatically be mailed the plastic three-year Outdoors Card by the end of the calendar year.

## I have a current Outdoors Card, but my licence tag has expired. How do I get a tag for this year?

One year fishing licence tags are available from more than 2,000 licence issuers across the province. Licences are often available from tourist outfitters' camps and lodges, summer camps, and sporting goods stores or bait dealers. In smaller communities, they may be available at general stores or other retail establishments.

## What is the definition of a resident of Ontario?

A resident of Ontario is defined as a person whose primary residence is in Ontario and who has lived in Ontario for a period of at least six months during the previous 12 months prior to applying for a licence.

## What is the definition of a resident of Canada?

A resident of Canada is defined as a person whose primary residence is in Canada and who has lived in Canada for a period of at least six months during the previous 12 months prior to applying for a licence.

## What is the definition of a disabled Canadian resident?

A disabled **Canadian** resident, under the *Fish and Wildlife Conservation Act* regulations, is someone who is eligible for and is in possession of EITHER:

- a Canadian National Institute for the Blind National Identity Card;  
OR
- an Ontario Ministry of Transportation disabled person parking permit (or a photocopy of both the front and back of the permit).  
A person carrying a photocopy of the permit may be asked to show the original permit at a later date.

In addition, a person who has an intellectual impairment and requires the assistance of another person in order to fish may fish without a licence.

If one of these exemptions applies to you, you may fish with Sport Fishing catch and possession limits.

## Do Aboriginal people need an Outdoors Card?

Except as provided for in some specific cases for conservation reasons, members of Ontario Aboriginal communities, having established aboriginal and treaty rights, do not require an Outdoors Card or Ontario fishing licence tag to fish for:

- personal use on their home reserve;  
OR
- within their known treaty or traditional territory.

Personal use is defined as for food, social or ceremonial purposes.

Individuals should be prepared to provide identification showing their community membership.

## What types of fishing licence tags are available to residents of Ontario and Canada?

There are four licence tags offered to Ontario residents and Canadian residents, for the back of the Outdoors Card:

1. Three-year Resident Sport Fishing Licence Tag
2. Three-year Resident Conservation Fishing Licence Tag
3. One-year Resident Sport Fishing Licence Tag
4. One-year Resident Conservation Fishing Licence Tag

Purchasing a three-year fishing licence tag is the easiest way to maintain your fishing privileges for the term of your Outdoors Card.

The three-year fishing licence tag is available:

- when renewing your Outdoors Card using the toll-free renewal line (1-800-288-1155) and a VISA, MasterCard or **American Express credit card**;
- when renewing your Outdoors Card over the Internet (<http://outdoorscard.mnr.stores.gov.on.ca>) with a VISA, MasterCard or American Express credit card;
- when renewing your Outdoors Card from a ServiceOntario Kiosk;
- when renewing your Outdoors Card with the pre-printed renewal application automatically sent to Outdoors Card holders when their card is about to expire;
- when applying for your Outdoors Card with a paper application obtained from the Outdoors Card Centre.

**NOTE:** this three-year licence option does not apply to the "Resident Sport Fishing Licence and Outdoors Card Application" or the "Resident Conservation Licence and Outdoors Card Application", as these are one-year options only.

The one-year fishing licence tag is also available to the holder of an Outdoors Card. One-year tags expire on December 31 in the year in which they are purchased. To maintain fishing privileges in the following year, the angler must purchase another one-year licence tag from a licence issuer.

## What is a Resident Sport Fishing Licence Tag?

For conservation reasons, fishing laws limit the number of fish an angler may catch or possess. The number depends on the type of licence the angler holds, the fish species, where the fish is caught and, in some cases, the size of the fish.

With a Resident Sport Fishing Licence Tag affixed to the Outdoors Card, the angler is eligible to catch and possess fish as specified beside the "S" on the Division/Species Table following each regional map in this summary. The Resident Sport Fishing Licence Tag is for anglers who wish to have full catch and possession fishing privileges.

The Resident Sport Fishing Licence tag is available for three-year or one-year periods.

## FAST FACTS ABOUT ONTARIO FISHING LICENCES

- Most Canadian residents need an **Outdoors Card** to fish in Ontario if they are at least 18 years old but have not reached their 65th birthday.
- If you have never had an Outdoors Card, you can request an application form be mailed to you by phoning the Outdoors Card Centre from anywhere in Canada at 1-800-387-7011.
- Your Outdoors Card is good for three calendar years. You must have a **fishing licence tag** on the back of a plastic Outdoors Card OR a temporary paper licence in order to have a complete and valid licence for fishing.
- If you are a Canadian resident between 18 and 65 years of age and you want to fish in Ontario right away, you can buy a **temporary paper licence** from one of more than 2,000 licence issuers across the province. A temporary paper licence is effective immediately and valid until December 31 of the year in which it was purchased.
- The fee for a temporary paper licence includes the cost of a 3-year Outdoors Card.
- If your Outdoors Card will soon expire, or has already expired, the fastest and easiest way to **renew your Outdoors Card** is a three year renewal by credit card with a call to 1-800-288-1155.
- Ontario Resident Hunters can also fish under the authority of their Outdoors Card (fishing/hunting version).
- If you do not live in Canada, you need a non-resident licence to fish in Ontario (see page 4).
- Get more information on the Outdoors Card by calling the Outdoors Card Customer Service Centre at 1-800-387-7011. This toll-free number works from all regions of Canada, from Monday to Friday, 8:30 a.m. to 5:00 p.m. (Eastern Time).

## What is a Resident Conservation Fishing Licence Tag?

For conservation reasons, fishing laws limit the number of fish an angler may catch or possess. The number depends on the type of licence the angler holds, the fish species, where the fish is caught and, in some cases, the size of the fish.

With a Resident Conservation Fishing Licence Tag affixed to the Outdoors Card, the angler observes a catch and possession limit that is lower (in most cases), than that of a Resident Sport Fishing Licence Tag holder.

Catch and possession limits are specified on the Division/Species Table following each regional map in this summary. The limit for the angler with a Conservation licence is indicated with a "C".

The Resident Conservation Fishing Licence Tag is ideal for the angler who wishes to live release the majority of the fish caught, or in the case of certain species, all of the fish caught. The holder of a Resident Conservation Fishing Licence Tag must quickly and carefully live release all fish of the following species:

- muskellunge;
- Atlantic salmon;
- sturgeon; and,
- aurora trout.

The Resident Conservation Fishing Licence Tag is available for three-year or for one-year periods.

## What is a Resident One-Day Fishing Licence?

Residents who wish to fish for one day only may take advantage of the Resident One-Day Fishing Licence. This licence might be the choice of someone going for a day's excursion on a charter boat.

Catch and possession limits for holders of the Resident One-Day Fishing Licence are specified on the Division/Species Table following each regional map. The limit for the angler with a One-Day Fishing Licence is indicated with an "S."

## What should I do if my Outdoors Card is lost, stolen or destroyed?

If your Outdoors Card or any part of your licence is lost, stolen or destroyed, call the Outdoors Card Centre (1-800-387-7011) to arrange for a replacement. In some circumstances there may be a fee for replacement.

## How can I get more information about the Outdoors Card?

The staff at the Ministry of Natural Resources Outdoors Card Centre would be pleased to provide any information you require and answer your questions.

You may reach the Outdoors Card Centre without charge from anywhere in Canada by phoning: 1-800-387-7011.

The hours of operation of the Outdoors Card Centre are Monday to Friday from 8:30 a.m. to 5:00 p.m. (Eastern Time).

# Residents of Canada Fishing Licence Options

The one-year licence fees stated in this Summary are in effect until December 31, 2001. Three-year fees are subject to change after August 31, 2001. For the location of the licence issuer nearest you, contact the Ministry of Natural Resources. A list of Ministry of Natural Resources offices is provided on page 91.

Licence Type	Available From	Cost
Outdoors Card plus three-year Resident Sport Fishing Licence Tag.	By mail (new application or renewal), by phone (renewal only) at 1-800-288-1155, over the internet at <a href="http://outdoorscard.mnr.stores.gov.on.ca">outdoorscard.mnr.stores.gov.on.ca</a> or from a ServiceOntario Kiosk (renewal only).	\$67.50
Outdoors Card plus three-year Resident Conservation Fishing Licence Tag.	By mail (new application or renewal), by phone (renewal only) at 1-800-288-1155, over the internet at <a href="http://outdoorscard.mnr.stores.gov.on.ca">outdoorscard.mnr.stores.gov.on.ca</a> or from a ServiceOntario Kiosk (renewal only).	\$42.75
Resident Sport Fishing Licence (one-year) and Outdoors Card Application [Outdoors Card is included in this fee.]	2,000+ licence issuers throughout the province.	\$26.50
Resident Conservation Fishing Licence (one-year) and Outdoors Card Application [Outdoors Card is included in this fee.]	2,000+ licence issuers throughout the province.	\$18.25
One-Day Fishing Licence.	Most licence issuers throughout the province.	\$10.00
Three-year Outdoors Card only (no licence tags). This Outdoors Card becomes a fishing licence only when a One-year licence tag (\$20.50 or \$12.25) is affixed.	By mail (new application or renewal), by phone (renewal only) at 1-800-288-1155, over the internet at <a href="http://outdoorscard.mnr.stores.gov.on.ca">outdoorscard.mnr.stores.gov.on.ca</a> or from a ServiceOntario Kiosk (renewal only).	\$6.00
One-year Resident Sport Fishing Licence Tag (for holders of a valid Outdoors Card).	2,000+ licence issuers throughout the province.	\$20.50
One-year Resident Conservation Fishing Licence Tag (for holders of a valid Outdoors Card).	2,000+ licence issuers throughout the province.	\$12.25
ONTARIO RESIDENTS ONLY: If you wish to both fish and hunt, you may apply for an Outdoors Card (hunting/fishing version) which provides for both privileges. Call the Outdoors Card Centre for complete details.	For information on this option call the Outdoors Card Centre: 1-800-387-7011  To renew your Outdoors Card (hunting/fishing version) with a credit card, call: 1-800-288-1155, or visit our Internet site at <a href="http://outdoorscard.mnr.stores.gov.on.ca">outdoorscard.mnr.stores.gov.on.ca</a>	Various

## What else should I know about my Outdoors Card?

Here are other important things to keep in mind:

- you must notify the Ministry of Natural Resources of any address change within **10 days of the change**. You can do this by calling the Outdoors Card Centre at **1-800-387-7011** toll-free from anywhere in Canada or by visiting our internet site at: <http://outdoorscard.mnr.stores.gov.on.ca>.
- **you must carry your Outdoors Card on your person whenever you are fishing or hunting**. If a conservation officer asks to see your Outdoors Card, the law states you must show it.
- your Outdoors Card is not transferable to another person - it provides privileges to you alone.
- you may legally apply for one Outdoors Card only. It is an offence to attempt to obtain more than one card. It is also an offence to provide false information on a card application.
- **if you have applied for an Outdoors Card and have not received it in the stated timeframe, call the Outdoors Card Centre at 1-800-387-7011**

## Fishing Licence Information for Non-Residents

### I live outside of Canada. Do I need a licence to fish in Ontario?

Anyone who lives outside of Canada is considered a non-resident for the purposes of fishing licence regulations. Most non-residents need a fishing licence to fish in Ontario. Specifically:

- Non-residents 18 years of age and over must purchase a fishing licence.
- Non-residents under 18 years of age may fish without a licence if accompanied by a adult who has a sport fishing licence. Any fish caught are part of the catch and possession limit of the adult who holds the licence. As another option, non-residents under 18 years may purchase a licence and any fish caught apply to the catch and possession limits of that licence.

### Non-residents 65 years of age or older are not exempt from licensing.

**NOTE:** Non-residents camping on Crown land in Northwestern Ontario (Divs. 20, 21, 22, 22A, 24, 31, 33 and 34) must observe Conservation Licence limits except for in the border waters area (see page 78).

For non-resident groups of children (at least five people under the age of 18 years accompanied by a licenced adult) there is a special Licence for Members of an Organized Camp. This licence is available from Ministry of Natural Resources offices.

### Where can I purchase a non-resident's fishing licence?

Non-resident anglers may purchase a fishing licence that is effective immediately at more than 2,000 locations throughout the province. Licences are often available from tourist outfitters' camps and lodges, summer camps, and sporting goods stores or bait dealers. In smaller communities, they may be available at general stores or other retail establishments.

A range of licences is offered to suit individual needs.

## Non-Resident Fishing Licence Options

The non-resident licence fees stated in this Summary are in effect until December 31, 2001. For the location of the licence issuer nearest you, contact the Ministry of Natural Resources. A list of Ministry of Natural Resources offices is provided on page 91).

Licence Type	Available From	Cost
Sport Fishing Licence – valid for the calendar year	2000+ licence issuers throughout the province	\$56.50
Conservation Fishing Licence – valid for the calendar year	2000+ licence issuers throughout the province	\$34.00
7-day Sport Fishing Licence	2000+ licence issuers throughout the province	\$36.00
7-day Conservation Fishing Licence	2000+ licence issuers throughout the province	\$21.50
One-Day Sport Fishing Licence (Great Lakes & connecting waters)	licence issuers located on the Great Lakes	\$14.50
Non-resident Angling Licence for a Member of an Organized Camp	Ministry of Natural Resources offices	\$4.00 per child
Lake St. Joseph tag	Lake St. Joseph tourist operator from whom accommodation is obtained	No charge

## Fishing Laws

Both federal and provincial laws regulate fishing in Ontario. These laws are designed to protect Ontario's fisheries, allowing recreational anglers and commercial fishers fair use of these resources now, while preserving them for the future. All anglers have the responsibility of obeying these laws. It is against the law to catch, try to catch, or possess any species if it is contrary to fishery regulations to do so. If you catch a fish illegally, return it immediately to the water (see *Tips on Live Release of Fish*, page 9).

## Fisheries Act

The main federal law with respect to fishing is the *Fisheries Act*, which protects and conserves fish and fish habitat. The *Fisheries Act* is used to regulate such things as fishing seasons, catch and possession limits, size limits, allowable gear and fish sanctuaries. The Act also makes it illegal to harm fish habitat which is defined as "spawning grounds and nursery, rearing, food supply and migration areas on which fish depend directly or indirectly, in order to carry out their life processes." Ontario conservation officers and deputy conservation officers are Fishery Officers with power to enforce the *Fisheries Act*.

The penalties for fishing offences against the *Fisheries Act* can include up to a maximum of:

General .....	\$500,000, 2 years imprisonment, or both
Habitat Related .....	\$1,000,000, 3 years imprisonment, or both

## Notice to Anglers

The Ministry of Natural Resources is proposing to:

1. increase the fines for offences under the Ontario Fishery Regulations, and
2. improve the process for issuing "tickets" for offences under the Ontario Fishery Regulations

The schedule of fines for fishery violations in Ontario has not been revised in over a decade. Current fines are less than in other provinces, and less than fines for similar offences under Ontario provincial legislation. They do not reflect the value of the fishery resource, nor do they act as a deterrent to those who may be inclined to fish illegally.

As well, the current ticketing process, prescribed under the *Fisheries Act*, is less efficient than the process under Ontario's *Provincial Offences Act* for violations of provincial laws. Legislating the authority to use *Provincial Offence Act* tickets for fishery offences would improve the efficiency and effectiveness of dealing with illegal fishing activity. This would be a considerable benefit to the courts, Conservation Officers, and the public.

For more information on the proposed changes, please write

Fishery Regulation Changes  
c/o Ministry of Natural Resources  
300 Water Street  
P.O. Box 7000  
Peterborough, Ontario  
K9J 8M5

## Fish and Wildlife Conservation Act

The *Fish and Wildlife Conservation Act* is the main provincial law regulating fishing. This Act is used to create different types of fishing licences and also to regulate such things as ice huts. The *Fish and Wildlife Conservation Act* is enforced by conservation officers and deputy conservation officers.

The penalties for fishing offences against the *Fish and Wildlife Conservation Act* can include:

General . . . . .	\$25,000, 1 year imprisonment, or both
Commercialization or Export/Import . . .	\$100,000, 2 years imprisonment, or both

## Conservation Officers

Conservation officers have powers of inspection, arrest, search and seizure under the various statutes they enforce, including the *Fish and Wildlife Conservation Act* and the *Fisheries Act*. When carrying out his or her duties, or investigating an offence under these statutes or the corresponding regulations, a conservation officer may do the following:

- Stop and inspect a vehicle, boat or aircraft;
- Ask questions relevant to the inspection;
- Inspect buildings or other places;
- Search with a warrant;
- Search without a warrant in circumstances requiring immediate action;
- Seize items related to an offence;
- Arrest anyone the conservation officer believes has committed, is committing, or is about to commit an offence of these Acts.

Conservation officers operate random "Fish Check Stations" throughout the year. At these stations, conservation officers collect information on fish caught by anglers and make sure the regulations are obeyed in order to manage and protect Ontario's fisheries resources.

## General Fishing Regulations

### Definition of Angling

Angling means fishing with a line that is held in the hand or is attached to a rod that is held in the hand or closely attended, and to which one or more hooks are attached.

### Open Seasons

Fishing season opening and closing dates vary depending on the species and the area. It is illegal to attempt to catch fish for which the season is closed, even if you are going to release them. Closed seasons protect fish at vulnerable times of the year, especially when they are spawning or protecting their young. For example, if adult bass are caught in the spring, the eggs and young bass are left unprotected, and are likely to be eaten by predators. To prevent large losses to these populations, the bass fishing season in most areas begins at the end of June, after the young are large enough to fend for themselves.

Please see the Map Specific Regulations to determine the fishing seasons for waterbodies in Maps A, B, C, D and E.

Unless stated otherwise, species that are not listed (such as catfish, sucker and rockbass) have a year-round open season.

### Fish Sanctuaries

No fishing of any kind is permitted in a fish sanctuary. Some bodies of water, or parts of them, are declared fish sanctuaries during certain times of the year. Fish sanctuaries are noted in the "Exceptions to the General Regulations" following the Division/Species Tables for Maps A, B, C, D and E. Note also that fish sanctuary areas are not always marked with signs. If you are at all uncertain, check with the local MNR office before fishing.

### Catch and Possession Limits

Fishery laws limit the number of fish you may catch or possess. The number depends on the type of licence you hold, the species, where they are caught and, in some cases, their size. **Note that for some species there are no limits. In these cases no reference will be made to a limit in this Fishing Summary.**

The **catch limit** is the number of fish you are allowed to catch and keep in one day. The **possession limit** is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified (see *Live Holding Boxes*, page 7).

If you catch a fish after reaching the daily catch and possession limit for that species, the fish must be released immediately back to the water.

Where a lower limit is referenced in the "Exceptions to the General Regulations", the lower limit also applies to conservation licence holders, if the referenced lower limit is less than the conservation licence limit.

**It is illegal to destroy, or to allow to spoil, fish which have been lawfully caught and which are suitable for food.**

## Size Limits

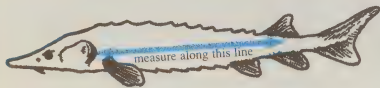

A variety of size restrictions apply to some species and waterbodies (see Map, A, B, C, D or E). Unless otherwise stated, size limits refer to **total length**, which is a measure from the tip of the mouth with the jaws closed to the tip of the tail, with the tail fin lobes compressed to give the maximum possible length (see illustration on right side of page).

For some waterbodies, the regulation may specify a size limit that is a fork length. **Fork length** is a measure from the tip of the mouth with the jaws closed to the central part of the tail fin (see illustration on right). If you catch a fish in a restricted size range, you must release it immediately (see *Tips on Live Release of Fish*, page 9).

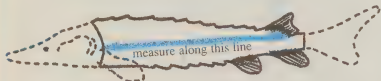

Provincial regulations are established using the metric system. The conversion to inches has been rounded to one decimal place for the convenience of anglers.

## MEASURING STURGEON LENGTH

**Please note: sturgeon are measured differently from other species of fish.**

With respect to Sturgeon, length refers to the distance measured from the most posterior limit of the gill opening to the point where the posterior edge of the dorsal fin joins the flesh of the body.

If the head has been removed, the measurement is taken from the cut edge mid-way between the back and the belly of the fish to the point where the posterior edge of the dorsal fin joins the flesh of the body.

## Exporting, Transporting or Storing Fish

### Export of Sturgeon

An export permit called a "Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) Export Permit" is required to export any sturgeon (in whole or part) from Canada. For more information, contact the Department of Fisheries and Oceans at (905) 336-6472, or the closest MNR office.

### Export of Fish

A recreational angler may, on leaving Ontario, take the designated possession limits for fish captured from a specific waterbody. Those with a Sport Fishing Licence may take the "S" possession limit and those with a Conservation Licence may take the "C" possession limit as noted in the Map Specific Regulations. Please also see the section on Bait, page 8.

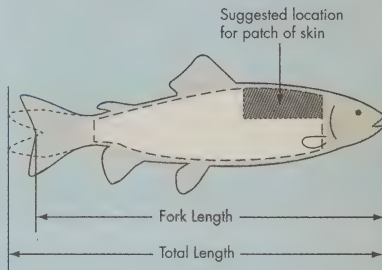

## Packaging Fish for Transport or Storage

When you are exporting, transporting or storing, you must ensure that the fish can be easily identified and counted. Where length limits apply, you must also ensure that the length of the fish can be determined (see below).

## PACKAGING FISH FOR TRANSPORT OR STORAGE

Many anglers travel long distances or cross international borders to enjoy the adventure of fishing in Ontario. We want to make sure that if you are packaging fish for the trip home, you are doing it according to regulations that help us monitor and enforce laws in place to protect fisheries resources. When packaging fish you **must** ensure that a Conservation Officer can determine:

- the number of fish that you have;
- the species that you have in your possession; and
- the length of fish or fillets when a size limit is in effect.

## Size Limits

Unless otherwise stated, size limits refer to **total length**, which is a measure from the tip of the mouth with the jaws closed to the tip of the tail, with the tail fin lobes compressed to give the maximum possible length.

On some waterbodies, the regulation may specify a size limit that is a fork length. **Fork length** is a measure from the tip of the mouth with the jaws closed to the central part of the tail fin.

For the proper way to measure sturgeon, see *Size Limits on left side of page*.

## Tips for a great fishing trip.

- leave a large patch of the skin on all fillets for identification.
- pack or freeze fish separately and flat so that they can be counted, identified and measured (clear plastic bags or clear plastic wrap is preferred).

## Transfer of Live Fish or Spawn

No live fish or spawn may be transferred from one body of water to another without the authorization of the Ministry of Natural Resources.

## Live Holding Boxes

If you use a live holding box or impounding device, it must be clearly marked with your name and address unless it forms part of or is attached to a boat. **Any fish in holding boxes are part of your limit.** Live holding boxes are not permitted in Div. 34 unless they form part of, or are attached to the boat.

## Gear Restrictions

### Hooks and Lines

An angler may use only one line, except for ice fishing, or unless otherwise stated.

A fishing line must not have more than four hooks. On an artificial lure, a gang containing up to three hooks is considered to be one hook. In all other situations, a double hook counts as two hooks; and a treble hook counts as three hooks.

**Be sure to take old fishing line to tackle shops for recycling.**

### Barbless Hooks

In most waters where barbless hooks are required, a line must have no more than one barbless hook attached to it. Usually this will be either a single, double or triple pointed hook. Any extra hooks must be removed from lures.

**In some waters however, only one single pointed barbless hook is allowed. Check the "Exceptions to the General Regulations" following each Map in this summary.**

A barbless hook means a hook that was made without a barb or has had its barb, either completely removed, or compressed so that it is completely in contact with the shaft of the hook.

### Artificial Flies

An artificial fly means a single or double hook dressed with silk, tinsel, wool, fur, feathers or other such material. It does not include a weight or a spinning device. Only artificial flies are allowed as bait in:

- East Goulais River from Laughing Lake in Menard Twp. to the Goulais River (Div. 18);
- Garden River from Ranger Lake to Garden Lake (Div. 18);
- Little Jocko River from Hwy. 63 bridge to Jocko River in Eddy Twp. (Div. 18); and
- Arrow River between the dam on Arrow Lake (Hardwick Twp.) and the Robbins/Hartington Township line (Div. 21).

Please check the "Exceptions to the General Regulations" for additional Gear Restrictions for specific waterbodies.

## LEAD FISHING GEAR

**Lead is a toxic substance, which can be found in some fishing sinkers, jigs and other lures.**

Some waterfowl, such as puddle ducks, geese or swans, swallow lead when they scoop up pebbles from the bottom of a lake or river to help grind their food. Other diving ducks or loons, can swallow lead when they eat fish with sinkers or jigs attached. When ingested, it can cause lead poisoning.

### What can anglers do to help?

- purchase non-toxic sinkers and jigs made of clay, tin, bismuth, steel or special putty;
- never throw old fishing gear into the water or on shore; and
- take lead sinkers, jigs and lures to hazardous waste disposal centres.

**NOTE: It is illegal to use or possess lead fishing sinkers or jigs in Canada's national parks and wildlife areas.**

## Ice Fishing

The fishing regulations outlined in the General Fishing Regulations, the Division/Species Tables, and the Exceptions to the General Regulations apply to ice fishing. Please note the following additional information:

- up to five lines may be used for ice fishing in Labyrinth Lake, including Waterhen Creek (Div. 19) downstream of Access Road bridge (Territorial District of Timiskaming);
- in most other circumstances, two lines may be used for ice fishing except in some waterbodies in Divs. 7, 15, 16 and 29 (see "Exceptions to the General Regulations"); and
- you may use a tip-up for ice fishing, but must remain within 60 m (197 ft.) of any line with which you are fishing. At all times, you must have a clear unobstructive view of the lines being used.

### Hut Registration

Ice fishing huts must be registered with the local MNR office if they are on any of the following waters:

- Any part of Divs. 7, 8, 9, 10, 11, 12, 12A, 15 & 29;
- Lakes Couchiching, Simcoe, Puslinch, Nipissing, Temagami, Scugog, Timiskaming, Manitou (Div. 28) and Trout (in the city of North Bay);
- Owen Sound and Colpoys Bay (Bruce and Grey counties);
- Long Point Bay on Lake Erie (Regional Municipality of Haldimand-Norfolk) west of a line from the survey point at Turkey Point Marina to Pottohawk Point; and
- The waters of Divs. 17, 18 & 23 lying in the Sault Ste. Marie district.

Contact the local MNR office for further information on ice fishing on these and other lakes.

## Hut Removal Dates

Ice fishing huts must be removed by the following dates:

- Feb. 28 in Div. 8 and Lake Scugog (Div. 6);
- March 15 in:
  - Percy, Seymour, Cramahe, Brighton and Murray Twps. (Div. 6);
  - Div. 7 except that part in Cashel Twp.;
  - Div. 9 except Oso, Olden, Kennebec and Kaladar Twps.;
  - Dirs. 10 & 11;
  - Div. 12 waters lying south of a line running east/west through the intersection of Hwy. 17 and Hwy. 533 and Div. 12A;
  - Tudor Twp. (Div. 15);
  - Lake Simcoe;
  - the part of Long Point Bay on Lake Erie (Regional Municipality of Haldimand-Norfolk) that lies west of a line drawn from the survey point at Turkey Point Marina to Pottowaw Point;
  - the part of Div. 4 in Simcoe and Dufferin Counties; and
  - water in Severn Sound (Div. 16).
- March 19 (Mon. after 3rd Sun.) in Colpoys Bay and Owen Sound;
- March 25 in Lake Nipissing (Div. 27);
- March 31 in:
  - Lake Temagami (Div. 26);
  - Lake Timiskaming (Div. 18);
  - Lake Manitou (Div. 28);
  - Waters south of, and including the French and Mattawa Rivers (except where earlier dates are listed); Trout Lake (North Bay) (Div. 18); and the waters of Dirs. 17, 18 & 23 lying in the Sault Ste. Marie district.

## Bait

### Use of Bait

#### Bait-fish

In most areas of Ontario, only the following fish may be used as bait-fish:

- Mudminnow family;
- Sucker family;
- Stickleback family;
- Lake herring of the whitefish family;
- Darter subfamily;
- Trout-perch family;
- Sculpin family;
- Minnow family except carp and goldfish; and
- Crayfish.

In the Great Lakes, the St. Clair, Detroit, Niagara, and St. Mary's rivers, Lake George and Munuscong Lake, alewife and yellow perch may also be used as bait.

**NOTE:** The use or possession of live fish for bait is not allowed in certain waters (see the "Exceptions to the General Regulations" for waterbodies where the use or possession of bait is prohibited, or contact your local MNR office for details, page 91).

## Other Types of Bait

Leeches, worms, northern leopard frogs and other frog species that are not specially protected may be used as bait. For a list of specifically protected frog species, see section on frogs under *Capture of Bait by Anglers*, below.

**NOTE:** Salamanders may **NOT** be used as bait in Ontario.

### Capture of Bait by Anglers

**NOTE:** It is illegal to sell angler-caught bait-fish, crayfish, leeches, frogs or spawn. Only holders of commercial bait licences may sell these types of bait.

#### Bait-fish

Only resident anglers with a valid fishing licence may capture their own bait-fish for personal use, using a bait-fish trap, dip-net or seine, subject to the following restrictions:

- A recreational angler, who catches their own bait-fish for personal use, may have no more than 120 personally caught bait-fish in their possession at any time.
- Any live holding box must be clearly marked with the name and address of the user.

**NOTE:** Non-resident anglers cannot take bait-fish for personal use by any means.

#### Bait-Traps

- To catch bait, resident anglers may use only one bait-fish trap (no more than 51 cm (20 in.) long and 31 cm (12.2 in.) wide), clearly marked with your name. A trap can be used day or night at any time of the year in all divisions, except Divisions 13 and 23 (see the "Exceptions to the General Regulations" for additional restrictions).
- Please check your trap on a regular basis to avoid wasting fish.

#### Dip Nets

- To catch bait, resident anglers may use only one dip-net (no more than 183 cm (6 ft.) on each side if square, or 183 cm (6 ft.) across if circular, during **daylight hours** (after sunrise and before sunset).
- A dip-net may be used in all Divisions, except Division 13.

#### Seine Nets

- To catch bait, resident anglers may use only one seine net (no more than 10 m (32.8 ft.) long and 2 m (6.5 ft.) wide) in the following waters only: Lake St. Clair (Div. 1), Division 2, except the Niagara River; Division 5, except the Beaverton River and tributaries in Brock Township from Lake Simcoe to the first dam; Divisions 11 & 17, waters of Lake Ontario in Division 8; the St. Lawrence River, Lake St. Francis, Georgian Bay, Lake Nipissing; and Division 23.

## Leeches

Only **resident** anglers with a valid fishing licence may capture their own leeches for personal use, subject to the following restrictions:

- A resident angler, who catches their own leeches, may have no more than 120 personally caught leeches in their possession at any time.

- To catch leeches, anglers may use one leech trap (that does not exceed 45 cm (17.7 in.) in any dimension).
- Traps must be clearly marked with the angler's name.

## Frogs

Resident and non-resident anglers with a valid fishing licence may capture their own frogs for personal use, subject to the following conditions:

- A recreational angler, who catches their own frogs, may have no more than 12 personally caught northern leopard frogs or one specimen of any other frog species that is not a specially protected amphibian in their possession at any time.
- Blanchard's Cricket frog, Fowler's toad, and the Gray Tree frog are specially protected amphibians in Ontario and may not be captured or used as bait.

## Worms

- There are no restrictions on the capture of worms for use as bait.

## Import of Bait

- It is illegal to bring live fish, crayfish or salamanders into Ontario for use as bait.
- It is illegal to bring live leeches into Ontario for use as bait, unless you are the holder of a commercial bait licence.

## Release of Bait

Release of bait-fish, crayfish or other types of live bait can seriously damage fish populations. Anglers must **NOT** release live bait into waters other than the waterbody where the bait was originally captured. (see *Stop the Invasion*, page 14).

## Capture of Bullfrogs and Snapping Turtles

Holders of valid Fishing Licences may catch and retain bullfrogs for personal use from July 21 – Oct. 15; the possession limit is 10. A person may hunt bullfrogs at night without a firearm and may shine a light for that purpose.

**Bullfrogs may not be taken in the Regional Municipality of Ottawa-Carlton, the Counties of Prescott and Russell, Stormont, Dundas and Glengarry, Leeds and Grenville, Lanark, Frontenac, Lennox and Addington, Prince Edward, Northumberland, Peterborough and Victoria, or in the County of Hastings south of, and including, the townships of Marmora and Lake Tudor and Cashel, Elzevir and Grimsthorpe. Bullfrogs may not be hunted with a firearm other than a long bow or crossbow.**

Holders of valid Fishing Licences may catch and retain snapping turtles during open seasons. For details on harvest areas, season dates and catch and possession limits, see the Ontario Hunting Regulations Summary under Game Amphibians and Reptiles or contact your local MNR office.

**Snapping turtles may only be captured by hand or by means of a box or funnel trap that does not injure or kill the turtle. The upper shell of a snapping turtle may not be removed from the carcass until immediately before it is prepared for consumption.**

Please note it is illegal to take bullfrogs, northern leopard frogs, green frogs, snapping turtles or any form of wildlife from provincial parks.

## TIPS ON LIVE RELEASE OF FISH

Using proper handling and release techniques improves fish survival, helps maintain a healthy fishery and identifies you as a conservationist. Here are some tips for successful catch-and-release:

### Angling

- Use barbless hooks; avoid using live or organic bait.
- Reduce the time a fish is played.

### Handling

- Keep the fish in the water as much as possible and handle the fish gently.
- Reduce handling that removes the slimy protective coating on fish.
- Do not squeeze or touch the gills. Grasp the fish just behind the gill covers. For panfish and bass, it is best to grasp the fish by the lower lip.
- Use long-nose pliers to remove the hook quickly without tearing or injuring the fish. If the fish is hooked deeply, cut the line and leave the hook in when the fish is released.
- Never put a fish that you may release on a stringer, use a functional livewell or release the fish immediately.

### Photographing

- Be ready ahead of time! Take pictures quickly, minimizing the amount of time the fish is out of the water.
- Hold the fish in a vertical position, supporting its weight with your arm and hands. Do not hold large fish in a vertical position.

### Releasing

- Revive the fish before letting go. Hold the fish upright in a swimming position in the water, moving the fish slowly forward and backward so water runs through the gills.
- Ensure the fish is breathing and can swim away under its own power before it is released.

**Remember: "The Future of Fishing is in Your Hands."**

## Non-Angling Methods of Capturing Fish

Anyone with a valid Resident Fishing Licence may fish using angling gear, one dip-net, one seine, bow and arrow or spear. Opportunities and restrictions on non-angling activities are outlined in the following tables. Licence holders may also obtain, without charge from MNR offices, the permit required to dip-net for pink salmon, whitefish and herring in specified areas of the province.

Persons with a valid Non-Resident Fishing Licence may fish with a single dip-net or seine net for smelt, and a bow and arrow for carp, sucker and coarse fish under the conditions outlined below.

**Coarse fish includes: gar family, bowfin, catfish family, burbot, eel, freshwater drum or sheepshead.**

Before fishing, check the Map Specific Regulations for the area and water body you will be fishing in for any exceptions or additional restrictions.

### It is illegal to:

- catch or kill a fish by impaling or snagging it with a hook through any part of the body other than the mouth. Any fish hooked in this way must be released immediately (see *Tips on Live Release of Fish*, page 9).
- fish with or possess a spring gaff;
- fish with or possess a baited or unbaited snagger for use in fishing;
- fish with or possess a snare for use in fishing;
- fish with a spear gun or possess a spear gun for the purpose of fishing;
- possess a spear for the purpose of fishing on or within 30 m (98.2 ft.) of the edge of any waters except when fishing in accordance with the regulations in the following tables;
- use artificial lights to attract fish except:
  - to fish for smelt, or to fish for lake whitefish or lake herring with a dip-net; if the light is part of a lure attached to a line used in angling;
- use dynamite or other explosives to take or destroy fish;
- fish within 25 m (81.8 ft.) of a pound net or fish culture cage;
- fish within 22.9 m (75 ft.) downstream from the lower entrance to any fishway or canal, obstacle, or any device designed to assist fish around an obstacle;
- use or possess a landing net with a frame greater than 127 cm (50 in.) in circumference, or a handle longer than 51 cm (20 in.) in the following waters or their tributaries: Pretty River; Batteaux River; Silver Creek in the Counties of Simcoe and Grey, Division 4.

Unless the regulations specifically state otherwise, all fishing by means other than angling must be done after sunrise and before sunset (during daylight hours).

Species	Method of Capture	Open Season	Waters
Northern Pike	- bow and arrow - dip net - spear	March & April	Waters of Div. 1, Div. 2 excluding the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk, and Div. 3 excluding waters in the County of Essex and the waters in Note 1 (see page 11) and excluding those parts of the Thames, Sydenham & Ausable Rivers in Div. 3.
	- bow and arrow - dip net - spear	January, February, March & April	Waters in the County of Essex (Div. 3).
Smelt	- dip net - seine	March, April & May (day or night)	All waters except the following: Divisions 4, 6, 13, 22, 24, 30, and 31; those parts of the Thames, Sydenham & Ausable Rivers in Div. 3; the waters in Note 1 (see page 11) (Div. 3); those parts of the Thames and Ausable Rivers in Div. 4; waters in that part of the Regional Municipality of Durham in Div. 4; and all the streams and rivers in the Counties of Bruce and Grey (excluding waters in Div. 4 listed under "Additional Fishing Opportunities (page 22) for Rainbow and Brown trout"); the Trent River and the part of Peterborough County in Division 7; the waters of the Rideau River between Hog's Back Dam and the Ottawa River in the Regional Municipality of Ottawa-Carleton.
Carp, Sucker & Coarse Fish	- dip net	March, April & May	All waters except Divisions 6, 13 and waters in Notes 1 & 2 (see page 11) of Divisions 3, 4 and 9.
	- bow and arrow	May 1 - July 15	Walkhouse Bay of Lake Huron (Robinson Twp.) and waters in Division 17.

*continued*

## Non-Angling Methods of Capturing Fish

Unless the regulations specifically state otherwise, all fishing by means other than angling must be done after sunrise and before sunset (during daylight hours).

Species	Method of Capture	Open Season	Waters
Carp, Sucker & Coarse Fish cont.	- spear	April & May	All waters except the following: the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk (Div. 2), the waters of Lake Huron fronting the Counties of Lambton, Bruce and Huron (Div. 2), Divisions 3, 5, 6 and 13, waters in the Counties of Bruce, Dufferin, Grey & Simcoe (Div. 4), waters in the Municipality of Metropolitan Toronto, in the Regional Municipalities of Peel and York and in that part of the Regional Municipality of Durham in Div. 4., waters in Morrison Twp. (Div. 7), the Rideau River between Hog's Back Dam and the Ottawa River (Div. 9) and the waters of Georgian Bay fronting the Counties of Bruce & Grey (Div. 16).
	- spear	March & April	Div. 3 except waters in Note 1 (see page 12) and excluding those parts of the Thames, Sydenham and Ausable Rivers in Div. 3.
Carp & Sucker	- bow and arrow	May, June & July	Waters in Divisions 8 and 11; the St. Lawrence River, including Lake St. Francis (Div. 12A); and the Ottawa River downstream from the Chaudière bridge fronting the Regional Municipality of Ottawa-Carleton and the United Counties of Prescott & Russell (Div. 12).
Sucker & Coarse fish	- bow and arrow	March & April	Waters of Div. 1, Div. 2 excluding Walkhouse Bay of Lake Huron (Robinson Twp.) and the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk, Div. 3 excluding the waters in Note 1 (see page 12) and, the waters of that part of Div. 4 in the Counties of Brant, Oxford, Perth, and Wellington and the Regional Municipalities of Halton, Hamilton-Wentworth, and Waterloo.
Sucker	- bow and arrow	April & May	Division 19.
Carp	- bow and arrow	May 1 - June 15	Divisions 1 and 2 except the following: the waters of Lake Erie fronting the Regional Municipality of Haldimand-Norfolk; the waters of Lake Ontario (Div. 2) fronting Haldimand and Hamilton Townships and the Town of Newcastle, the City of Oshawa and the Town of Whitby and the waters of Walkhouse Bay of Lake Huron in Robinson Twp. (Div. 2).
			The County of Simcoe and the Holland River in the Regional Municipality of York (Div. 4); Division 5 except the Beaverton River and tributaries (Brock Twp.).
	- bow and arrow	May, June and July	Waters of Lake Ontario (Div. 2) fronting Haldimand and Hamilton Townships and the Town of Newcastle, the City of Oshawa and the Town of Whitby.
	- bow and arrow	Mar. 1 - June 15	Waters in the Counties of Brant, Oxford, Perth & Wellington and in the Regional Municipalities of Halton, Hamilton-Wentworth & Waterloo (Div. 4); Div. 3 except for waters in Note 1 (see page 12).
	- bow and arrow	May 1 - Aug 15	Waters in the County of Huron (Div. 4).

## Non-Angling Methods of Capturing Fish

Species	Method of Capture	Open Season	Waters
Carp <i>cont.</i>	- bow and arrow	May 12 (Sat. after 2nd Fri.) to July 31	Division 6.
	- bow and arrow	June & July	Rideau River between the dam at Burrits Rapids and Lock 17 and the dam in the West Branch Rideau River at Long Island and Lock 16, including Kemptville Creek to Hwy. 43; waters in the Counties of Stormont, Dundas, Glengarry, Prescott and Russell (Div. 9).
Pink Salmon, Whitefish & Herring	- dip net	contact local MNR Office for details	All divisions.

### Restrictions on Equipment

**DIP-NETS** may be no more than 183 cm, (6ft.) on each side if square, or 183 cm (6ft.) across if circular.

**SINES** may be no more than 10 m (32.8 ft.) long and 2 m (6.5 ft.) wide.

**SPEAR** - Fishing with a spear, or having a spear within 30 m (100 ft.) of the edge of a body of water, is illegal except in the circumstances noted above.

**Note 1:** The following waters are exceptions as noted in the table:

- waters in the Township of Delhi or the former Townships of Charlotteville and Windham;
- waters in the Township of Norfolk or the former Townships of Middleton, Houghton, North Walsingham & north of Concession 3 in the former township of South Walsingham (Div. 3);

- Young's Creek in the City of Nanticoke or the former Township of Woodhouse in the Regional Municipality of Haldimand-Norfolk (Div. 3).
- Grand River and tributaries downstream of Onadaga and Tuscarora Twps. (Div. 3).
- Grand River and tributaries downstream of the Onadaga and Tuscarora Twps. line of Lake Erie.

**Note 2:** The following waters are exceptions as noted in the table:

- the part of Division 4 within the Regional Municipality of Durham and all the streams and rivers in the Counties of Bruce and Grey (excluding waters in Division 4 listed under "Additional Fishing Opportunities" on page 17);
- the Rideau River between Hog's Back Dam and the Ottawa River;
- the Thames, Sydenham and Ausable rivers.

## Who is Stealing YOUR Resources? Who is Stealing YOUR Opportunities?

There is obviously a limit on the number of birds, animals, fish, and other resources that may be available for our use. If we take more than this limit, we threaten the sustainability of our resources.

MNR ensures that this does not happen by creating laws that make certain that everyone gets a fair share of the allowable harvest of the resources available.

People who break resource protection laws do several things that directly affect you, the legitimate resource user:

- They steal your opportunity to harvest the individual animal or fish
- They steal your opportunity to enjoy the outdoors with your family and friends. When poachers take more than their share, it means more regulations must be created to restrict you from taking your fair share of the allowable harvest.
- They threaten the future of your sport by creating negative images of your activity with the public who do not fish, hunt, trap or use our natural resources.

How can you support these thieves? By staying quiet. By not "getting involved". By looking the other way. By saying, "It's not big deal, its only one animal."

Crimes Stopper calls are all anonymous. Crime Stoppers pays cash rewards up to \$1000.00. Crime Stoppers does not subscribe to call display.

Is there any reason to continue to allow your resources and opportunities to be stolen?

How can you stop these thieves? By Calling

**1-800-222-TIPS (8477)**

By calling Crime Stoppers, you accept your responsibility to protect natural resources and the right to enjoy them for yourself, for your family, friends, and for future resource users.

**Crime Stoppers  
Échec au crime**

## Safe Boating and Fishing

### Safe Boating in Areas of Commercial Fishing

The commercial fishing industry in Ontario, which is primarily focused on the Great Lakes, harvests fish using trawls and a variety of stationary nets. All nets must be identified by means of buoys, stakes, and markers which identify the owner of the net and the location of the beginning or end of the net. Besides these markers, there may be additional buoys (e.g. plastic or steel cans) that indicate intermediate portions of the net or anchor lines. Boaters should be aware that, because the length of some nets may exceed several thousand meters, it may not be possible to see both ends.

To ensure safe boating in areas where commercial fishing activity takes place, please consider the following:

1. Many retail and wholesale freshwater fish outlets can provide information regarding local net marking systems.
2. Many local yacht clubs, sailing clubs, power squadrons, and marinas have information regarding commercial fishing activities in local waters. In some cases, detailed maps of fishing locations and specific markings may be available.
3. Report unmarked nets immediately to the closest Ministry of Natural Resources office.
4. Treat commercial fishing gear with the same caution as any other floating device, apparatus or debris.
5. When a net marker is encountered it may not always be possible to observe which way the net runs under the water especially during summer months, when nets are usually set in cooler deeper water.
6. Lures and other sharp foreign objects stuck in commercial nets are hazards to commercial fishers.
7. Tampering with commercial fishing gear is dangerous to boaters, and is an offence under the *Fisheries Act*.
8. If your gear accidentally becomes entangled in a commercial net, contact the commercial operator immediately.
9. **Entanglement of cannonballs may present a serious and dangerous situation to boaters.** Cannonball cables, if not released from the net immediately, can act like an anchor. If this occurs, the downrigger line should be cut immediately with wire cutters.
10. Boaters should recognize that maneuvering a trawler can be very difficult. Be aware that standard boating rules and regulations apply when encountering any large commercial fishing vessel.

If you have questions pertaining to Ontario's commercial fish industry, please call any local office of the Ministry of Natural Resources or contact the Ontario Commercial Fisheries' Association at (519) 676-0488.

### Safe Boating and Fishing near Hydro-electrical Generating Stations and Dams

These areas can be dangerous. Boaters and anglers should avoid getting too close to the powerful surge of water from dams and spillways.

To ensure safe boating and fishing in these areas, please:

- Approach slowly and always wear a personal flotation device;
- Watch for warning signs or barriers above or below dams and stay a safe distance away from them.
- Stay clear of the "headpond" or "tailrace" water at dams and spillways. Water level and flow can change without warning. It can quickly swamp your boat and put you in the grip of an undertow.
- Don't waste into moving water.
- Stay sober. Drinking and driving a power vessel is just as dangerous and illegal as drinking and driving a car.

## Laws to Help Stop the Spread of Exotics

Harmful exotic species are often spread unknowingly. As an angler or boater, you should always take precautions to help stop the spread of exotic species. You should also be aware that there are laws in place to help ensure that unauthorized introductions do not take place.

### A licence is required to:

- Stock fish into Ontario waters.
- Ship or transport live fish other than bait-fish taken from a waterbody.
- Transfer and deposit fish taken from one waterbody into another.
- Import leeches into Ontario for use as bait. Only the holder of a commercial bait licence may bring live leeches into Ontario for use as bait.

### It is illegal to:

- Release bait-fish, including crayfish or any other live fish, except into the body of water from which they were taken. If you are not sure what lake or river they came from, do not release them.
- Release aquarium fish into Ontario waters.
- Import into Ontario for use as bait any live fish, live crayfish, or live salamanders.
- Possess a ruffe, except when transporting a dead specimen to an MNR office.
- Use live smelt as bait or possess live or dead smelt while fishing in Division 22, 22A, 30, 31 and 32 in Northwestern Ontario.

### Remember:

- Take care when cleaning smelt. Do not rinse equipment or dump entrails into a lake or river. Fertilized smelt eggs can easily start an invasion of a new watershed.
- Never release or flush aquarium pets, plants or water into natural waters, drainage ditches or sewers.

**Aquarium Fish** - many people release unwanted aquarium pets into natural waters. Not only is this activity illegal; it can harm the environment. Several exotic species of plants and animals have been introduced to the Great Lakes region by this practice. If you have an unwanted aquarium pet, you can return it to a local pet store, donate to a school, or contact the **Fish Rescue Program at 1-800-563-7711** - it will be better for your pet and the environment.

**Moving Live Fish** - Many new populations of smallmouth bass, rock bass and other fish species have been established in Ontario through unauthorized stocking. These introductions are often conducted by individuals with good intentions of creating new recreational fisheries. However, this practice is illegal and can cause great harm to existing recreational, commercial and bait-fisheries. The negative impacts of these stocking activities often become widespread as the introduced species spreads to other lakes through connected waterways. **A licence is required for all fish transfers and stocking into Ontario waters.**

By spreading the word and taking action against exotic species you will help conserve Ontario's healthy fisheries!

# Stop

Ontario's waters are threatened by exotic species that can be spread unknowingly by anglers and boaters.

## the

# Invasion!

Eurasian Watermilfoil

Smelt

Zebra Mussel

To report sightings and get the latest information call the  
**Invading Species Hotline 1-800-563-7711**

## Anglers and Boaters - You Can Help

**Inspect** your boat, motor, trailer, and boating equipment (anchor, centreboards, rollers, axles) and remove any zebra mussels and other plants and animals that are visible before leaving any waterbody.

**Drain** water from the motor, livewell, bilge and transom wells while on land before leaving the waterbody.

**Wash/dry** your boat, tackle, downriggers, trailer, and other boating equipment to kill harmful species that were not visible at the boat launch. Some aquatic nuisance species can survive more than 2 weeks out of water so it is important to:

- **rinse** your boat and equipment that normally gets wet with hot tap water (greater than 40°C); or
- **spray** your boat and trailer with high pressure water (250 psi); or
- **dry** your boat and equipment for at least 5 days before transporting to another waterbody.

**Empty** your bait bucket on land before leaving any waterbody. Never release live bait into a waterbody, or release aquatic animals from one waterbody into another.

**Learn** how to identify zebra mussels and other exotic species. If you suspect a new infestation, report it to the Invading Species Hotline (1-800-563-7711). This hotline is a partnership between the Ontario Ministry of Natural Resources and the Ontario Federation of Anglers and Hunters.

*\*Open Species NOT listed above (except for Bull-Head) generally have a year-round open season subject to state and federal regulations. All other species are subject to state and federal regulations. For information on full lake season rules, see page 6.*

**Size Limits:** Unless otherwise stated, the length referred to is total length. (See page 6)  
Size restrictions listed above apply to both Sport Fishing and Conservation licences.

**Daily Catch and Possession Limits:** Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

### Catch and Possession Limits for Salmon and Trout COMBINED

- (Not exceeding individual species limits where otherwise stated)
- Div. 1 (Lake St. Clair, St. Clair River and Detroit River) & Div. 2 (Lake Erie, Lake Huron and the west half of Lake Ontario): five (5) salmon and trout in one day, but not more than three (3) may be lake trout, brook trout, and splake combined. In Lake Huron (part of Div. 2), not more than two (2) may be rainbow trout.
  - Divs. 3, 4, & 5: five (5) salmon and trout in one day, but not more than two (2) may be lake trout. Divs. 3 & 4, see General Areas Exceptions for rainbow trout in tributaries to Lake Huron and Georgian Bay.
  - Two (2) in one day but not more than one (1) may be lake trout. Lake Huron (part of Div. 2) not more than one (1) rainbow trout. Divs. 3 & 4, see General Areas Exceptions for rainbow trout in tributaries to Lake Huron and Georgian Bay.

## General Notes

- The Talbot River and its tributaries and the Trent Canal System in Brock Twp., Simcoe County and Ramara Twp., Durham Region are part of Div. 6.
- Sparrow Lake (Orillia and Morrison Twps.) is in Div. 4.
- The Niagara River is in Div. 2.
- Severn River System in the Regional Municipality of Muskoka, including Gloucester Pool, is in Div. 4.
- Lake Simcoe is all of Div. 5. See exceptions for cisco (lake herring) season and limits.

## Attention: Lake Huron Anglers

**\$100.00 REWARD** - for lake trout with internal tags as identified by an external spaghetti tag near the dorsal or pelvic fin. The date, time and location of capture must be submitted along with the entire fish (not gutted). The fish are only located in Lake Huron and tag must state - USGS \$100.00 reward - to qualify. For reward and pick-up locations, please contact:

Hammond Bay Biological Station,  
Millersburg, Michigan  
49759

at (517) 734-4768, after hours at (517) 733-8337.

Niagara River.	2	Muskellunge minimum length of 111.8 cm (44 in.) Sturgeon closed all year, from the Peace Bridge downstream to Lake Ontario.
Nine Mile (Lucknow) River - Ashfield and West Wawanosh Twp. between County Road 86 and Lake Huron.	4	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.). Northern pike, walleye and sauger open from May 12 (2nd Sat.) - Dec. 31. Lake trout and splake open from Apr. 28 (last Sat.) - Sept. 30. Pacific salmon open from Apr. 28 (last Sat.) - Dec. 31. Atlantic salmon open from Apr. 28 (last Sat.) - Sept. 30. Sturgeon open from June 15 - Dec. 31. Whitefish open from Apr. 28 (last Sat.) - Dec. 31. All other species not listed here except largemouth and smallmouth bass and brook trout open from Apr. 28 (last Sat.) - Dec. 31.
Nine Mile River tributaries - Huron County, Hwy. 86 downstream to Lake Huron.	4	Fish sanctuary - no fishing from Jan. 1 - May 4 (Fri. before 1st Sat. in May) & Oct. 1 - Dec. 31.
Nine Mile River - 100 m (328 ft.) above Port Albert Fishway - Ashfield Twp.	4	Fish sanctuary - closed all year.
Normandale (Potters) Creek - Delhi Twp.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.) & Oct. 1 - Dec. 31.
North Creek - Delhi Twp., south of Hwy. 3.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.).
North River - Tay and Matchedash Twp.	4	Fish sanctuary - no fishing from Apr. 1 - May 11 (Fri. before 2nd Sat.).
Nottawasaga River and tributaries upstream from County Road #50.	4	Salmon (all species) open from the Apr. 28 (last Sat.) - Sept. 30.
Nottawasaga River - Essa Twp., from Hwy. 89 above Nicholson Dam downstream to near the confluence of the Boyne River.	4	Fish sanctuary - no fishing from Jan. 1 - May 11 (Fri. before 2nd Sat.) & Sept. 16 - Dec. 31.
Orchard Creek (Centreville Creek) and tributaries in St. Vincent Twp.	4	Rainbow trout open from June 1 to Sept. 30.
Park Head Creek in Arnabell Twp. from the confluence of Park Head Creek with the Sauble River upstream to Hwy. #6.	4	Rainbow trout open from June 1 to Sept. 30.
Pfefferlaw Brook - Town of Georgina.	4	Fish sanctuary - no fishing from May 12 (2nd Sat.) - June 29 (Fri. before last Sat.).
Pine River and tributaries upstream from the Nottawasaga River.	4	Salmon (all species) open from Apr. 28 (last Sat.) - Sept. 30.
Pinery Park Pond - Bosanquet Twp., Lambton County.	3	Brook, brown and rainbow trout open from Jan. 1 - Mar. 31 & Apr. 28 (last Sat.) - Sept. 15.
Pottawatomie River and Maxwell Creek - City of Owen Sound and Derby Twp. from the intersection of 15th Street West and 7th Avenue West upstream to the base of the escarpment.	4	Fish sanctuary - no fishing from Apr. 28 (last Sat.) - May 31 & Sept. 1 - Sept. 30.
Pretty River and tributaries - Town of Collingwood and Nottawasaga Twp.	4	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.) & Oct. 1 - Dec. 31.
Pretty River and tributaries - Collingwood and Osprey Twp.	4	Rainbow trout open from June 1 - Sept. 30.
Sangs Creek and tributaries - Arran Twp.	4	Fish sanctuary - no fishing from Apr. 28 (last Sat.) - May 31.
Saugeen River - Arnabell and Saugeen Twp., Denny's Dam to the concrete abutments downstream.	4	Fish sanctuary - closed to night fishing Oct. 1 - Oct. 31 (one-half hour after sunset to one-half hour before sunrise).

Waters of Southwestern Ontario (Map A)	Div.	Exceptions
augeen River - Brant Twp., from dam face of Maple Hill Dam to 300 m (984 ft) downstream including Hydro Electric Power Channel.	4	Fish sanctuary - closed all year.
even River - Severn Twp.	4	Fish sanctuary - no fishing from Apr. 1 - May 11 (Fri. before 2nd Sat.).
heldon Creek and tributaries upstream from County Road #50.	4	Salmon (all species) open from Apr. 28 (last Sat.) - Sept. 30.
iver Creek and tributaries - Town of Collingwood and Nottawasaga Twp.	4	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.).
iver Creek and tributaries - Town of Collingwood, Collingwood and Nottawasaga Twps.	4	Rainbow trout open from June 1 - Sept. 30.
pencer Creek (Valen's Reservoir) - Flamborough Twp.	4	Fish sanctuary - no fishing from Apr. 1 - June 29 (Fri. before last Sat.).
t. Clair River upstream to the north span of the Bluewater Bridge.	1	Yellow perch catch and possession limit of fifty (50), Conservation licence limit of twenty-five (25). Walleye catch and possession limit of six (6), only one (1) greater than 46 cm (18.1 in) in length, Conservation licence catch and possession limit of two (2), only one (1) greater than 46 cm (18.1 in) in length.
toney Creek - Delhi Twp., south of Hwy. 3 to Big Creek.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.).
turgeon River - Tay and Oro-Medonte Twps. upstream from the lamprey barrier.	4	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.).
ydenham River - Artificial Spawning Channels Nos. 1 and 2 - Derby Twp.	4	Fish sanctuary - closed all year.
ydenham River - City of Owen Sound and Derby Twp., from Inglis Falls to Mill Dam, excluding artificial Spawning Channels Nos. 1 and 2.	4	Fish sanctuary - no fishing from Apr. 28 (last Sat.) - May 31.
ydenham River - City of Owen Sound, from the Mill Dam to a point 177 m (581 ft) downstream.	4	Fish sanctuary - closed all year.
ydenham River and tributaries in the City of Owen Sound and Derby Twp. from the north end of the "Chinese or Rainbow Bridge" in Harrison Park upstream to the base of Inglis Falls.	4	Fish Sanctuary - no fishing from Sept. 1 to Sept. 30.
albot River - Ramara Twp.	4	Fish sanctuary - no fishing from Mar. 16 - June 29 (Fri. before last Sat.).
alter (Boathwell's) Creek - Sydenham Twp. (Grey County).	4	Fish sanctuary - no fishing from Apr. 28 (last Sat.) - May 31.
hames River - Elgin, Kent, and Middlesex Counties; Chatham to Middlesmiss Bridge.	3	Fish sanctuary - no fishing from Mar. 15 - Apr. 15.
hames River and its tributaries - from the waters edge of Lake St. Clair to the Spring Bank Park Ram in the City of London.	3	Walleye catch limit of six (6), none of which can be between 43 cm (17 in.) and 63.5 cm (25 in.) in length and only one over 63.5 cm (25 in.) in length.
hames River - between the dam at Gordon Pitlock Reservoir and the bridge at Hwy. 59.	4	Fish sanctuary - no fishing from Mar. 15 - May 11 (Fri. before 2nd Sat.).
ug Channel and unnamed channel - between Little Lake and Georgian Bay - Tay and Georgian Bay Twps.	4	Fish sanctuary - no fishing from Apr. 1 - May 11 (Fri. before 2nd Sat.).
Whiteman's Creek and tributaries from the East Quarter Town Line Road downstream to the edge of the Grand River.	4	Fish sanctuary - no fishing from Oct. 1 - Apr. 27 (Fri. before last Sat. in Apr.).
Whiteman's (Horner) Creek - between Robinson Road and Cleaver Sideroad - Brantford Twp.	4	Catch and possession limit of five (5) salmon and trout, but not more than one (1) rainbow or brown trout. Brown trout and rainbow trout minimum length of 50 cm (19.7 in.). Artificial lures with a barbless hook must be used.
Wilcox Lake - Grey County.	4	Brook, brown & rainbow trout open from Jan. 1 - Mar. 31 and Apr. 28 (last Sat.) - Sept. 30.
Wilder Lake - Grey County.	4	Brook, brown & rainbow trout open from Jan. 1 - Mar. 31 and Apr. 28 (last Sat.) - Sept. 30.
Williams Lake - Grey County.	4	Brook, brown & rainbow trout open from Jan. 1 - Mar. 31 and Apr. 28 (last Sat.) - Sept. 30.
Willow Creek - St. Edmunds Twp.	4	Fish sanctuary - no fishing from Apr. 28 (last Sat.) - May 11 (Fri. before 2nd Sat.).
Young's (Ryse) Creek - Delhi Twp. and the City of Nanticoke, between the dam on Lot 23, Zone, II in the former Twp. of Charlotteville and the downstream side of the bridge on the Lakeshore Road at Port Ryse.	3	Fish sanctuary - no fishing from Jan. 1 - Apr. 27 (Fri. before last Sat.).

## CONTAMINANTS IN SPORT FISH

Fish can accumulate contaminants to levels that may pose a health hazard to the public. To protect the health of those who consume sport fish, the Ontario Government tests fish from lakes and rivers throughout the province for a wide variety of contaminants such as mercury, PCBs, DDT, mirex, toxaphene and dioxins. The results of this testing program are made available through the **Guide to Eating Ontario Sport Fish**. The Guide provides species and size-specific advice on fish consumption from more than 1,600 locations throughout Ontario.

The **2001-2002 Guide to Eating Ontario Sport Fish** will be available free of charge from offices of the Ministries of Natural Resources and Environment by the end of March, 2001. Copies can also be obtained by contacting the Sport Fish Contaminant Monitoring Program at the address and phone numbers given below. As well, if you have any specific questions on contaminants in Ontario sport fish or are not sure if the fish you have caught are suitable for consumption, you may contact staff at the same numbers:

## 2000 Survey of Recreational Fishing in Canada - Ontario Edition

In early January of 2001 a randomly selected group of anglers from inside and outside of Ontario will be sent an eight page questionnaire that will ask them about their fishing activity in Ontario during the year 2000. If you receive one of these questionnaires please take a few minutes to complete and return it. They are designed to provide valuable information on the recreational fishing effort, harvest and investments and expenditures associated with angling. Even if you are an occasional angler and don't get to fish as much as you would like please do complete what you can so that we have a more comprehensive survey. This information will assist both provincial level managers and field managers in improving the recreational fisheries in the province. Furthermore the information for Ontario is rolled up with that from the other provinces in order to provide a national picture.

## Scale Collection Program Underway

### *To Assist in the Study of the Genetic Biodiversity of Muskellunge*

The Ministry of Natural Resources' Fisheries Genetics Unit has initiated a scale collection program in partnership with Muskies Canada to provide samples for the genetic analysis of Ontario's muskellunge populations. With modern technology, it is now possible to obtain detailed genetic information from the small amounts of skin tissue attached to fish scales. Only four to six scales are needed from each fish. These scales can be removed in seconds without causing any harm to the fish.

Over the next five years, MNR research scientists will be using muskellunge scales from populations across Ontario to study:

**Conservation Genetics** - to identify the most suitable source populations for reintroductions and rehabilitation;

**Stocking Effects** - to determine how effective past stocking efforts have been and what effects stocking has had on resident populations;

**Evolutionary Genetics** - to resolve issues about muskellunge evolution; study the species' Ice Age history and post glacial recolonization; identify geographic genetic structure among native populations;

**Stock Structure** - in the Kewartha Lakes and Georgian Bay, to identify the geographic ranges and genetic diversity of genetically distinct stocks, and examine genetic relationships and homing fidelity among breeding populations.

This study will provide valuable information for the sustainable management and use of muskellunge populations in Ontario.

To assist in this study, Muskies Canada will be collecting scales from across the province. Anglers who wish to participate in this study should contact Muskies Canada, either through their local chapter or on the web at:

<http://www.trentu.ca/muskie>

and follow the link to muskellunge genetics

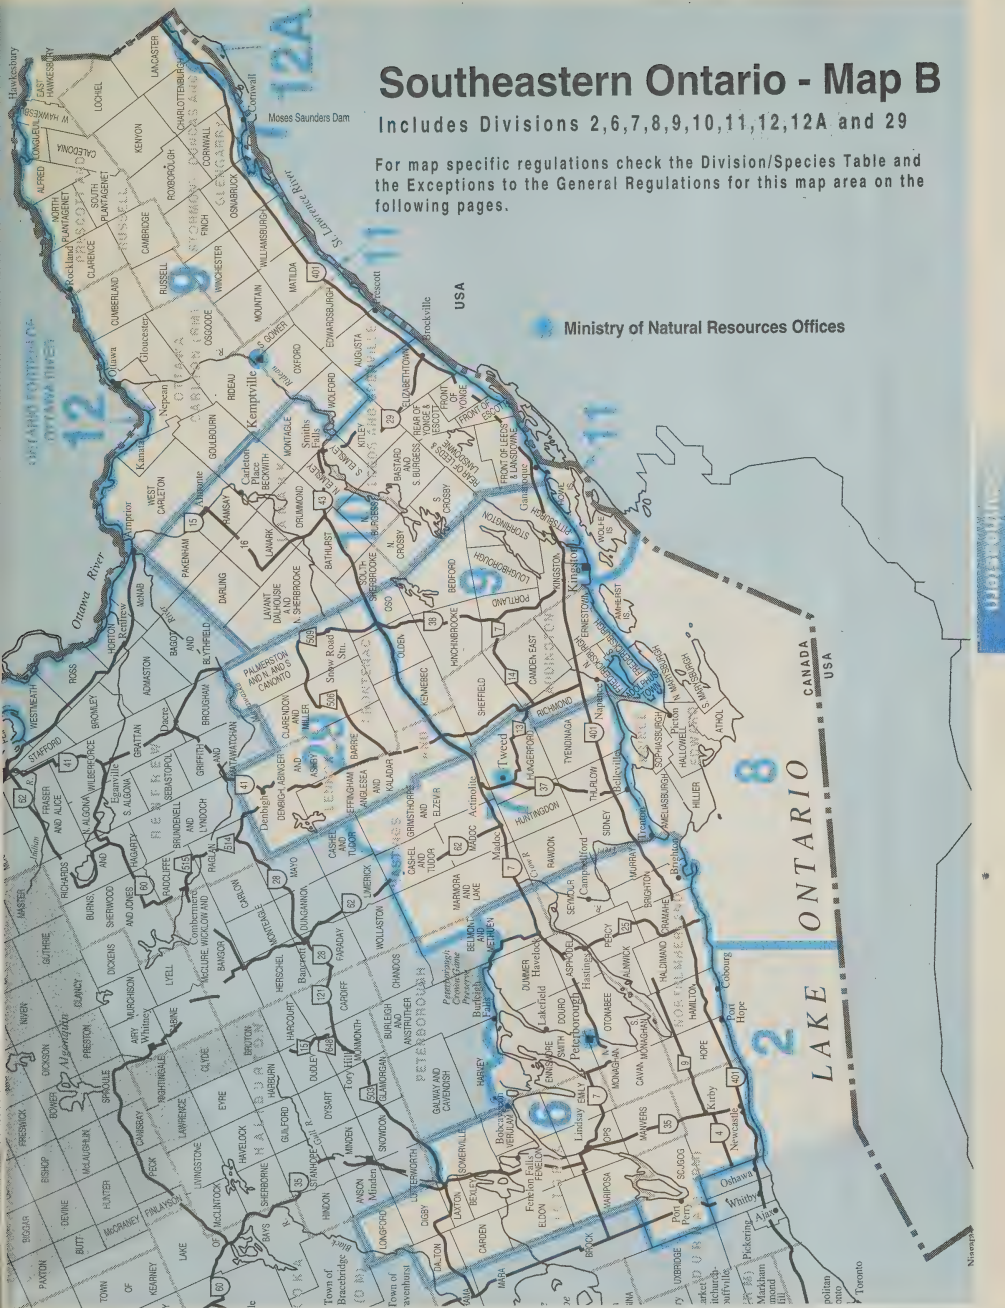

# Southeastern Ontario - Map B

Includes Divisions 2,6,7,8,9,10,11,12,12A and 29

For map specific regulations check the Division/Species Table and the Exceptions to the General Regulations for this map area on the following pages.

Note: Species NOT listed above (except for bait-fish) generally have a year round open season and no catch and possession limits although seasons and limits for other species may be in place in some areas. Check in the Exceptions to the General Regulations or with the local MNR office. For information on bait-fish restrictions, see page 8.

## Size Limits:

Unless otherwise stated, the length referred to is total length. (See page 6)

Size restrictions listed above apply to both Sport Fishing and Conservation licences.

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of the fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

Store Meals - Fish caught that day and eaten are counted as part of your daily catch limit.

## † Catch and Possession Limits for Salmon and Trout COMBINED

[Not exceeding individual species limits where otherwise stated]

S = Dvs. 2, 8 and 11 (Lake Ontario and St. Lawrence River); five (5) salmon and trout in one day, but not more than three (3) may be lake trout, brook trout, and splake combined.

• Dvs. 6, 7, 9, 10, 12, 12A & 29: five (5) salmon and trout combined, in one day.

C = Two (2) in one day with not more than one (1) lake trout.

NOTE: Other seasons - Division 6

All other species not listed in above table are open from Apr. 28 (last Sat.) - Nov. 15.

S = no limit

C = no limit

This does not include bait-fish, see page 8.

# SOUTHEASTERN ONTARIO

## General Notes

- **Fishing is prohibited in all waters of Div. 6 (including Kawartha Lakes and Dalrymple Lake in Victoria and Simcoe Counties) from Nov. 16 to the Friday before the last Saturday in April in any year.** This restriction does not apply to Lake Scugog ice fishing in Jan. and Feb.; nor does it affect "Additional Fishing Opportunities" listed below.
- Lake Scugog: walleye and yellow perch seasons open Jan. 1 - Feb. 28.
- Div. 10 includes Opinicon, Wolfe and Silver Lakes in the County of Frontenac and White, Brook, Clyde and Bartraw Lakes in the County of Renfrew.
- The waters of the Trent River from Percy Reach to Lock 9 are in Div. 7.

## Bait Restrictions

- In Divs. 9, 10 & 29 there is a year-round ban on fishing with live or dead lake herring (cisco) as bait.

## Licences for Provincial Border Waters

Ontario-Quebec Border: You may fish in Lake Timiskaming and throughout Div. 12 (Ottawa River) and in Div. 12A (Lake St. Francis) with either an Ontario Resident or a Quebec Resident fishing licence.

## Additional Fishing Opportunities

## CFWIP

Under MNR's Community Fisheries and Wildlife Involvement Program (CFWIP), Ontario anglers and hunters have participated in hundreds of fishery and wildlife management projects. You can contribute to fish and wildlife conservation by getting involved. Encourage children to get involved in conservation activities; help develop a sense of stewardship in our young people.

**Think of the future. Get involved in CFWIP.**

**For more information and a project application, contact your local MNR office.**

## Central Ontario - Map C

Includes Divisions 2, 12, 13, 15, 16, 17, 27, and 28

For map specific regulations check the Division/Species Table and Exceptions to the General Regulations for this map area on the following pages.

● Ministry of Natural Resources Offices

## CENTRAL ONTARIO

### General Notes

- **Algonquin Park:** All fishing is prohibited in Div. 13 from Jan. 1 - Apr. 27 (Fri. before last Sat.) & Dec. 1 - Dec. 31.
- **Lake Nipissing:** All angling in Div. 27 is prohibited from Mar. 8 - May 18 (Fri. before Victoria Day) & Oct. 16 - Dec. 31.
- **St. Marys River,** all waters east or down river of the compensation works at the head of the St. Mary's River rapids in Sault Ste. Marie and including Echo Bay are within Div. 17.

### Licences for Provincial Border Waters

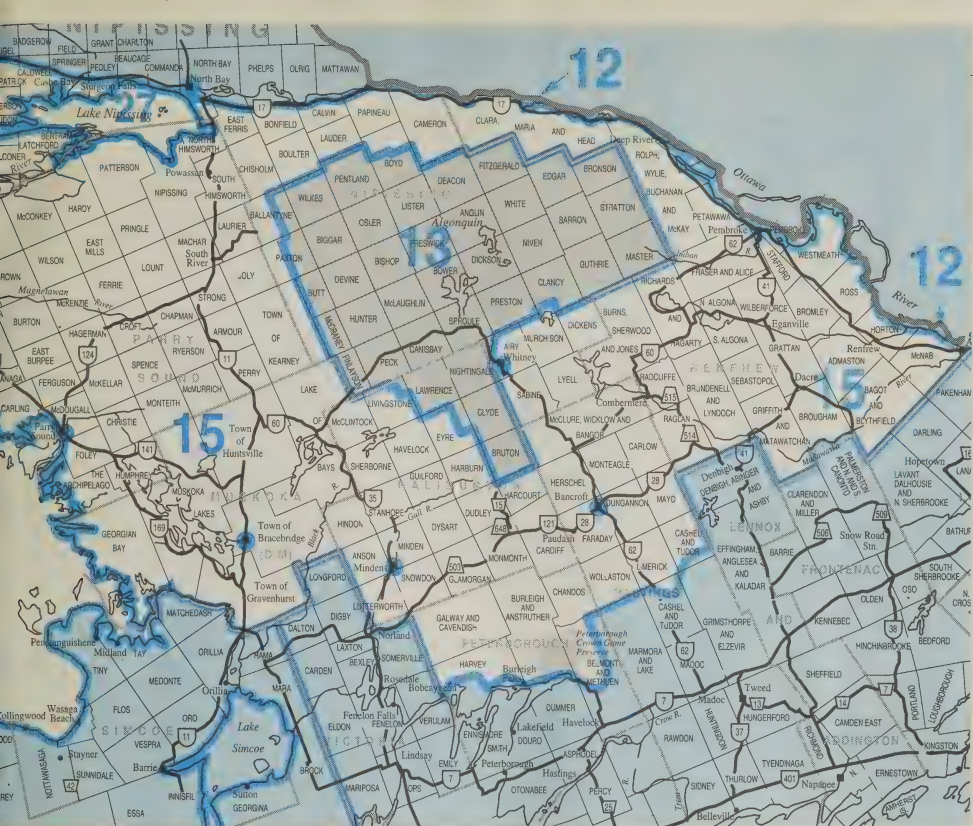

Ontario-Quebec Border: You may fish in Lake Timiskaming and throughout Div. 12 (Ottawa River) and in Div. 12A (Lake St. Francis) with either an Ontario Resident or a Quebec Resident fishing licence.

### Attention: Lake Huron Anglers

**\$100.00 REWARD** - for lake trout with internal tags as identified by an external spaghetti tag near the dorsal or pelvic fin. The date, time and location of capture must be submitted along with the entire fish (not gutted). The fish are only located in Lake Huron and tag must state - USGS \$100.00 reward - to qualify. For reward and pick-up locations, please contact:

Hammond Bay Biological Station,  
Millersburg, Michigan  
49759

at (517) 734-4768, after hours at (517) 733-8337.

## FOREST FIRES

To report a forest fire in Ontario, you may call toll free and your call will be directed to the Ministry of Natural Resources Regional Fire Response Centre, within the area code from which you are calling.

In the 705 telephone area code (north of the French/Mattawa River System) call:  
**1-888-863-FIRE (3473).**

In the 807 telephone area code (northwestern Ontario) call:  
**1-888-284-FIRE (3473).**

<b>C</b> - zero (0)	<b>C</b> - zero (0)

*Note: Species NOT listed above (except for bait fish) generally have a year round open season and no catch and possession limits, with few exceptions and limits for other species may be in place in some areas. Check in the Exceptions to the General Regulations or with the local DNR office. For information on bait fish restrictions, see page 6.*

## Size Limits:

Unless otherwise stated, the length referred to is total length. (see page 6)  
Size restrictions listed above apply to both Sport Fishing and Conservation licences.  
**Fork length** is a measure from the tip of the mouth with jaws closed to the central part of the tail fin (see page 6).

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of fish.

The **catch limit** is the number of fish you are allowed to catch and keep in one day. The **possession limit** is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

## Catch and Possession Limits for Salmon and Trout COMBINED

(Not exceeding individual species limits where otherwise stated)

- Lake Huron (south of the north end of the Bruce Peninsula) and Georgian Bay (excluding Big Sound) (Divs. 2 and 16): five (5) salmon and trout, but not more than three (3) may be lake trout, spikie and backcross combined, and not more than two (2) may be rainbow trout. See the "Exceptions to the General Regulations" on p. 45 for regulations affecting rainbow trout, lake trout, spikie and backcross hybrid in the waters of the Big Sound of Parry Sound.
- Lake Huron (north of the north end of the Bruce Peninsula) and the North Channel (Divs. 2 and 17): five (5) salmon and trout, but not more than three (3) may be lake trout, spikie and backcross trout combined.
- Divs. 12, 13, 27 & 28: five (5) salmon and trout combined, in one day.

**C** • Two (2) in one day with not more than one (1) lake trout.

- In Lake Huron, south of the north end of the Bruce Peninsula only one (1) rainbow trout in one day.

## FISHING LICENCE LIMITS:

S Sport Fishing

C Conservation Fishing

## CENTRAL ONTARIO (MAP C) Division/Species Table

## Ontario Record Fish Registry

The Ontario Federation of Anglers and Hunters operates the Ontario Record Fish Registry. This registry recognizes the largest fish caught in Ontario for 47 species. For more information, please contact:

ONTARIO FEDERATION  
OF ANGLERS &  
HUNTERS

The Ontario Federation of Anglers and Hunters

P.O. Box 2800

Peterborough ON K9J 8L5

Telephone: (705) 748-6324

Fax: (705) 748-9577

Internet: <http://www.ofah.org> e-mail: [ofah@ofah.org](mailto:ofah@ofah.org)

The Registry includes the following records, as of 2000

	lbs.*	kgs.		lbs.*	kgs.
Atlantic Salmon	24.30	11.0	Lake Whitefish	14.77	6.7
Aurora Trout	6.64	3.0	Largemouth Bass	10.43	4.7
Black Crappie	3.78	1.7	Muskellunge	65.00	29.5
Brook Trout	14.50	6.6	Northern Pike	42.12	19.1
Brown Trout	34.38	15.6	Rainbow Trout	29.12	13.2
Chinook Salmon	46.38	21.1	Smallmouth Bass	9.84	4.5
Coho Salmon	28.64	13.0	Lake Sturgeon	168.00	76.2
Lake Herring (Cisco)	4.33	2.0	Walleye	22.25	10.1
Lake Trout	63.12	28.6	Yellow Perch	2.25	1.0

\* Pounds are the official unit of measurement.

# Northeastern Ontario - Map D

Includes Divisions 14, 18, 19, 25, and 26

For map specific regulations check the Division/Species Table and Exceptions to the General Regulations for this map area on the following pages.

# NORTHEASTERN ONTARIO (MAP D) Division/Species Table

Open Seasons (all dates inclusive) - Catch, Possession and Size Limits

You **MUST** check the Exceptions on pages 57 to 71 for additional regulations on specific water bodies

**FISHING LICENCE LIMITS:**  
**S** Sport Fishing  
**C** Conservation Fishing

<b>Sturgeon</b>	Jan. 1 to May 14 & June 15 to Dec. 31 S - one (1) in one day C - zero (0)	Jan. 1 to May 14 & June 15 to Dec. 31 S - one (1) in one day C - zero (0)	Jan. 1 to May 14 & June 15 to Dec. 31 S - one (1) in one day C - zero (0)	Jan. 1 to May 14 & June 15 to Dec. 31 S - one (1) in one day C - zero (0)

*Note: Species NOT listed above (except for bait fish) generally have a year round open season and no catch and possession limits although seasons and limits for other species may be in place in some areas. Check in the Exceptions to the General Regulations or with the local MNR office. For information on bait fish restrictions, see page 8.*

## Size Limits:

Unless otherwise stated, the length referred to is total length, (see page 6)

Size restrictions listed above apply to both Sport Fishing and Conservation licences.

## Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of the fish.

The **catch limit** is the number of fish you are allowed to catch and keep in one day. The **possession limit** is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

## \*Catch and Possession Limits for Salmon and Trout COMBINED

(Not exceeding individual species limits where otherwise stated)

- S • Five (5) salmon and trout combined in one day.
- C • Two (2) in one day with not more than one (1) lake trout.

Waters of Northeastern Ontario (Map D)	Div.	Exceptions
Swallow Lake.	19	Walleye must be less than 40 cm (15.7 in.) or greater than 50 cm (19.7 in.) in length.
Tahill Lake - Somme Twp.	19	Live fish may not be used as bait or possessed for use as bait.
Talon Lake in front of Orlig and Calvin Twps.	19	Fish sanctuary - no fishing from Mar. 16 - May 18 (Fri. before 3rd Sat.).
Tank Lake - Wisner Twp.	18	Live fish may not be used as bait or possessed for use as bait.
Tasker Creek - situated at approximate latitude 47°03'N, 82°09'W.	18	Walleye must be less than 40 cm (15.7 in.) or greater than 50 cm (19.7 in.) in length.
Taylor Creek and tributaries - Van Koughnet Twp.	18	Fish sanctuary - no fishing from Apr. 15 - June 15.
Taylor Lake - Wigle Twp.	19	Live fish may not be used as bait or possessed for use as bait.
Telluride Lake - Beemer Twp.	19	Walleye closed all year.
Theriot Lake - James Twp.	18	Fish sanctuary - no fishing from Mar. 16 - May 18 (Fri. before 3rd Sat.).
Thielman Creek and tributaries - Pennefeather Twp.	18	Fish sanctuary - no fishing from Apr. 15 - June 15.
Thieving Bear Creek, Best Twp. - from Thieving Bear Lake to 200 m (656 ft.) in an arc extending out into Net Lake.	18	Fish sanctuary - no fishing from Mar. 16 - May 18 (Fri. before 3rd Sat.).
Thor and Edna Lakes - from a line 90 degrees due north and another line 90 degrees due east from the center of the island situated on Edna Lake (47°04'N, 81°14'W), at the mouth of the Vermilion river north through the river 400 m (1,310 ft.) into Thor Lake (47°06'N, 81°14'W).	19	Fish sanctuary - no fishing from Mar. 15 - June 15. (See also Solo Creek and Thor Lake).
Thor Lake - Lampman Twp.	19	Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30. (See also Thor and Edna Lakes, above).
Thorning River - from the mouth of the river at Harris Lake upstream to the junction of the first creek.	19	Fish sanctuary - no fishing from Apr. 15 - June 30.
Tikamaganda Lake (47°31'N, 84°11'W) - Eaket Twp.	18	See Combined waters of Tikamaganda Lake etc. in General Areas. Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30. Lake trout catch and possession limit of two (2), not more than one (1) greater than 40 cm (15.7 in.) in length and not more than one (1) less than 40 cm (15.7 in.) in length.
Tikamaganda Lake and Tikamaganda River and connecting waters upstream of the Montreal River to the top of the first rapids or obstruction to fish.	18	Northern pike & walleye catch & possession limit of two (2), two (2) of each species.
Tikamaganda River - Eaket, Emory and Hallett Twps.	18	See Combined waters of Tikamaganda Lake etc. in General Areas.
Timimiche Lake - Michie Twp.	19	Walleye closed all year, open 2002.
Today Lake (49°51'N, 80°41'W).	19	Fish sanctuary - no fishing from Jan. 1 - May 18 (Fri. before 3rd Sat.) & Nov. 1 - Dec. 31.
Tom Lake - St. John Twp.	19	Smallmouth bass closed all year, 2001, 2002, 2003, 2004.
Tomiko Lake (Grant, Fell and Field Twps.) and Mosquito Creek (Fell Twp.).	18	Fish sanctuary - no fishing from Mar. 16 - May 18 (Fri. before 3rd Sat.).
Tomiko River - from the bridge in lot 8, concession IV, Grant Township to Tomiko Lake.	18	Fish sanctuary - no fishing from Apr. 1 - May 31.
Tomorrow Lake (49°55'N, 80°41'W).	19	Fish sanctuary - no fishing from Jan. 1 - May 18 (Fri. before 3rd Sat.) & Nov. 1 - Dec. 31.
Townline Lake - Sayer Twp.	18	Fish sanctuary - no fishing from Jan. 1 - Feb. 14 - Mar. 16 - Apr. 27 (Fri. before last Sat.) & Oct. 1 - Dec. 31.
Trolope Lake - Freshville Twp.	19	Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30.
Troupe Lake - Dunphy Twp.	19	Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30. Lake trout catch and possession limit of two (2), not more than one (1) greater than 40 cm (15.7 in.) in length and not more than one (1) less than 40 cm (15.7 in.) in length. Only artificial lures are allowed as bait.
Trout Creek and its tributaries - from the Michipicoten River to 2 km (1.2 mi.) upstream of the Hydro transmission line in the townships of Robazza, Lendrum and McMurray.	18	Fish sanctuary - no fishing from Apr. 15 - June 15.
Trout Lake - East Ferris Twp. - lying between the waters edge and a line drawn 30 m (98.4 ft.) in perpendicular distance from Poplar Island along the west side of the island from the northwest tip of the island to the southwest tip of the island.	18	Fish sanctuary - no fishing from May 15 - July 31.
Trout Lake - City of North Bay and East Ferris Twp.	18	Lake trout and Atlantic salmon open from June 16 (3rd Sat.) - June 22 (Fri. before 4th Sat.). Lake trout or Atlantic salmon catch and possession limit and Conservation licence limit of one (1), maximum length 55 cm (21.6 in.). Aggregate catch limit for Atlantic and Pacific salmon, splake, aurora, brook, brown, lake and rainbow trout is five (5), not more than one (1) Atlantic salmon or lake trout, maximum length 55 cm (21.6 in.).
Trout Lake - Widfield Twp. - lying within a line drawn from the most westerly tip of Kirwood Island, commonly known as Camp Island extending 50 m (164 ft.) into the water and paralleling the shore for a distance of 500 m (1,640 ft.) then back to the south shore.	18	Fish sanctuary - no fishing from May 15 - July 31.
Troubail Lake - Parkman Twp.	18	Live fish may not be used as bait or possessed for use as bait.
Tukane Lake - Common and Hunt Twps.	19	Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30. Lake trout catch limit of two (2) in, not more than one (1) greater than 40 cm (15.7 in.) in length and not more than one (1) less than 40 cm (15.7 in.) in length. Only artificial lures are allowed as bait.
Turtleshell Lake - Clement and Scholes Twps.	18	Fish sanctuary - no fishing from Jan. 1 - Jan. 31.
Tweed Lake (49°34'N, 80°18'W).	19	Walleye must be less than 43 cm (16.9 in.) or greater than 60 cm (23.6 in.) in length.
Twenty-six Mile Creek - Robb and Turnbull Twps. between Kamiskotia Lake and Christmas Lake.	19	Fish sanctuary - no fishing from Apr. 1 - June 14.
Tweep Lake - Newman Twp.	19	Fish sanctuary - no fishing from Nov. 1 - May 18 (Fri. before 3rd Sat.).
Unnamed Creek - between Wabikoba Lake (48°47'N, 85°45'W) and Ellis Lake including Edna Creek upstream to the first obstruction to fish.	19	Fish sanctuary - no fishing from Mar. 15 - June 15.
Unnamed Creek - Bray Twp., at Gargantua Harbour of Lake Superior.	18	Fish sanctuary - no fishing from Apr. 15 - June 15.
Unnamed Lake (48°31'N, 84°27'W) - Pearkes Twp.	19	Walleye closed all year.
Unnamed Lake (48°32'N, 84°27'W) - Pearkes Twp.	19	Walleye closed all year.
Unnamed Lake (49°47'N, 80°39'W).	19	Fish sanctuary - no fishing from Jan. 1 - May 18 (Fri. before 3rd Sat.) & Nov. 1 - Dec. 31.
Upper Kawawagama (Upper Duffy) Lake.	19	See Combined waters of Craig Lake, etc. in General Areas.
Upper Kesagami Lake (49°40'N, 80°17'W).	19	Walleye must be less than 40 cm (15.7 in.) or greater than 50 cm (19.7 in.) in length.
Upper Loo Lake (48°26'N, 84°26'W) and all connecting waters and tributaries to the top of the first rapids or obstruction to fish.	19	Walleye catch and possession limit of two (2), not more than one (1) greater than 40 cm (15.7 in.) in length and not more than one (1) less than 40 cm (15.7 in.) in length.
Valentine River - Stoddart and Bannerman Twps., Hwy. 11 to Hanlon Lake (excluding Fushimi Lake).	19	Fish sanctuary - no fishing from Apr. 1 - June 14.

Waters of Northeastern Ontario (Map D)	Div.	Exceptions
Verana Lake (49°49'N, 80°33'W).	19	Fish sanctuary - no fishing from Nov. 1 - May 18 (Fri. before 3rd Sat.).
Vermilion River and Vermilion Lake - between the Hwy. 144 bridge and Hwy. 17 in the Town of Walden.	18	Walleye open from Jan. 1 - Mar. 31 & May 19 (3rd Sat.) - Dec. 31.
Verte Lake - Duff Twp.	19	Smallmouth bass closed all year.
Vondet Lake and Creek - Shelly Twp.	19	Fish sanctuary - no fishing from Apr. 1 - June 15.
Wabatoingushi Lake - Challenger Twp.	19	Walleye must be less than 34 cm (13.4 in.) or greater than 41 cm (16.1 in.) in length.
Wabatoingushi Lake at Wabatoingushi Narrows - Challenger Twp.	19	Fish sanctuary - closed all year.
Wabatoingushi Lake - Dibben Bay - from a point 1300 m (4,265 ft.) west to a point 1200 m (3,937 ft.) southwest of Dibben Creek and Dibben Creek upstream to Dibben Lake, and including the creek and connecting Dibben Creek to the unnamed lake due north of Dibben Lake - Simpson, Moorehouse and Challenger Twps.	19	Fish sanctuary - no fishing from Mar. 15 - June 15.
Wabonung Lake (48°24'N, 84°48'W).	19	Walleye closed all year.
Wabikoba Creek, first obstruction south into Cedar Lake including north end of Cedar Lake not within Brothers Twp.	19	Fish sanctuary - no fishing from Mar. 15 - June 15.
Wabikoba Creek - from Theresa Lake dam south and extending 200 m (656 ft.) from creek mouth into Wabikoba Lake.	19	Fish sanctuary - no fishing from Mar. 15 - June 15.
Wakusimi River - Griffin, Seaton and Usigar Twps.	19	Fish sanctuary - no fishing from Sept. 16 - Dec. 31.
Wakwekobi Lake.	18	See Big Basswood Lake.
Warbedellus Lake (48°10'N, 85°19'W).	19	Live fish may not be used as bait or possessed for use as bait.
Watabeag Lake - Sheba, Nordica, Terry, McEay and Tolstoi Twps.	19	Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30.
Waterhen Creek in Ossian Twp. - from the culvert crossing the Pontiac/McVitie Road east to the mouth of the creek as it flows into Labyrinth Lake.	19	Fishing sanctuary - no fishing from Apr. 1 - June 14.
Welcome Lake - Valin Twp.	19	Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30.
Wendigo Lake - Bayly and Marier Twps.	19	Lake trout open from Feb. 15 - Mar. 15 & May 19 (3rd Sat.) - Sept. 30.
Wenibegon Lake and River - Langlois and Lynch Twps.	19	Fish sanctuary - no fishing from Apr. 1 - June 14.
West Choppa Lake (49°50'N, 80°38'W).	19	Fish sanctuary - no fishing from Nov. 1 - May 18 (Fri. before 3rd Sat.).
West Davignon Creek - Korah Twp., City of Sault Ste. Marie.	18	Fish sanctuary - no fishing from Apr. 15 - June 15.
Whirligig Lake - Gamble Twp.	18	Fish sanctuary - closed all year.
White Lake (48°47'N, 85°37'W) including Kwikwaga River up to the first rapids above Atikameg Lake and all connecting waters and tributaries to the top of the first rapids or obstructions to fish.	19	Walleye must be less than 36 cm (14.2 in.) or greater than 43 cm (16.9 in.) in length.
White Lake and all the tributary waters to the top of the first rapids.	19	Lake trout closed all year.
White Lake, Shabotik River, Kwikwaga River - the part of Shabotik Bay 850 m (2,790 ft.) southwest of the mouth of the Shabotik River north to the west tip of the low island along the north shore of Shabotik Bay about 1050 m (3,445 ft.) northwest of the mouth of the Shabotik River; the Shabotik River from White Lake upstream to the top of the first rapids about 350 m (1,148 ft.) above the confluence with the Kwikwaga River; and the Kwikwaga River upstream to Atikameg Lake.	19	Fish sanctuary - no fishing from Mar. 15 - June 15.
White Lake, Olga Creek, and McGill Creek (unsurveyed territory) - part of Shabotik Bay from a point 300 m (984 ft.) west and southeast to the point 650 m (2,133 ft.) east of the mouth of Olga Creek; and Olga Creek upstream from the lake 2 km (6,560 ft.) to a small lake; and McGill Creek from Olga Creek 1 km (3,280 ft.) upstream to Atikameg Twp.	19	Fish sanctuary - no fishing from Mar. 15 - June 15.
White Lake and White River - the bay of White Lake south of a line from the northeast corner of Regan Pt. east to the eastern shore of White Lake at the road from the Mobert subdivision, and the White R. from White Lake upstream 700 m (2,300 ft.) to the bridge on the Mobert Road (Laberge Twp.).	19	Fish sanctuary - no fishing from Mar. 15 - June 15.
White Pine Lake - Gamble Twp.	18	Fish sanctuary - closed all year.
White Pine Lake - McLeod Twp.	18	Fish sanctuary - closed all year.
White Rock Lake - McNie Twp.	18	Fish sanctuary - closed all year.
Whitebear Lake - Sayer Twp.	18	Fish sanctuary - no fishing from Jan. 1 - Feb. 14; Mar. 15 - Apr. 27 (Fri. before last Sat.) & Oct. 1 - Dec. 31.
Whitefish Channel (Whitefish Creek) City of Sault Ste. Marie, between St. Mary's Island and Whitefish Island.	18	Fish sanctuary - closed all year.
Whitefish Lake and Shikwamika River, Maness Twp. from 820 m (2,690.6 ft.) below Bailey Bridge site to 200 m (656 ft.) above Bailey Bridge site.	18	Fish sanctuary - no fishing from Mar. 15 - June 15.
Whitman Creek - Daumont and Gaudette Twps., between Devil's (Deil) Lake and the Gouais River.	18	Fish sanctuary - no fishing from Apr. 15 - June 15.
Wicksteed Lake - Kenny, Gladman, Flett, Gooderham, Milne Twps.	18	Fish sanctuary - no fishing from Jan. 1 - May 18 (Fri. before 3rd Sat.).
Wilderness Lake - Gamble Twp.	18	Live fish may not be used as bait or possessed for use as bait.
Wildgoose Lake - McCann Twp.	19	Walleye catch and possession limit of (1).
Wishart Lake - Wishart Twp.	18	Fish sanctuary - closed all year.
Wolf Lake - Sisk Twp.	18	Live fish may not be used as bait or possessed for use as bait.
Woods Lake - Afon Twp.	18	Fish sanctuary - no fishing from Jan. 1 - Jan. 31.
Wooley Lake (48°51'N, 80°37'W) - Edwards Twp.	19	Walleye open from May 17 - Dec. 31.
Wynn Lake - Arnold Twp.	19	Fish sanctuary - closed all year 2002, 2003, 2005, & 2006 Aurora trout open from Aug. 1 - Oct. 15, fish sanctuary remainder of year 2001, 2004, & 2007. Live fish may not be used as bait or possessed for use as bait.
Yesterday Lake (49°50'N, 80°43'W).	19	Fish sanctuary - no fishing from Nov. 1 - May 18 (Fri. before 3rd Sat.).
Yesterday River Lake (49°49'N, 80°46'W).	19 & 25	Fish sanctuary - no fishing from Nov. 1 - May 18 (Fri. before 3rd Sat.).
Zac Lake.	19	Walleye must be less 40 cm (15.7 in.) or greater than 50 cm (19.7 in.) in length.

## Northern Ontario: Home of the Beautiful Aurora Trout

One of the rarest fish in the world lives in Ontario.

Never widespread in its distribution, the Aurora trout almost disappeared due to habitat changes resulting from acid rain. Aurora trout were saved from extinction by a captive breeding program developed by the MNR's Hill's Lake Hatchery, located near Englehart. The hatchery program has been so successful that Auroras are now stocked in nine northern Ontario lakes, and angling opportunities are provided in several of these lakes each year, on a rotational basis.

In 2001, you're invited to fish for this beautiful color variant of brook trout in these lakes:

- Borealis Lake - Division 33 (Map E).
- Semple #54 Lake (Semple Township) - Division 19 (Map D)
- Wynn Lake (Arnold Township) - Division 19 (Map D)

The open season is August 1 to October 15. Live fish may not be used as bait or possessed for use as bait. The catch and possession limit is one fish, if you are fishing with a Sport Fishing licence. If you hold a Conservation Fishing Licence, you must quickly and carefully release any auroras you catch.

## CROWN LAND AND CAMPING

In Ontario, travel for recreational purposes on Crown lands and waters is generally free and unrestricted. Generally, camping is allowed free on Crown lands for up to 21 days per year except where posted as no camping. Some Crown lands, however, have restricted travel zones for forest fire prevention, officially closed forest access roads and areas posted with signs to prohibit all or certain kinds of travel.

**Non-residents 18 years of age or older**, except those using the services of a commercial outfitter, require a permit to camp on Crown lands north of the French and Mattawa Rivers. Contact your local MNR office or licence issuer for permits.

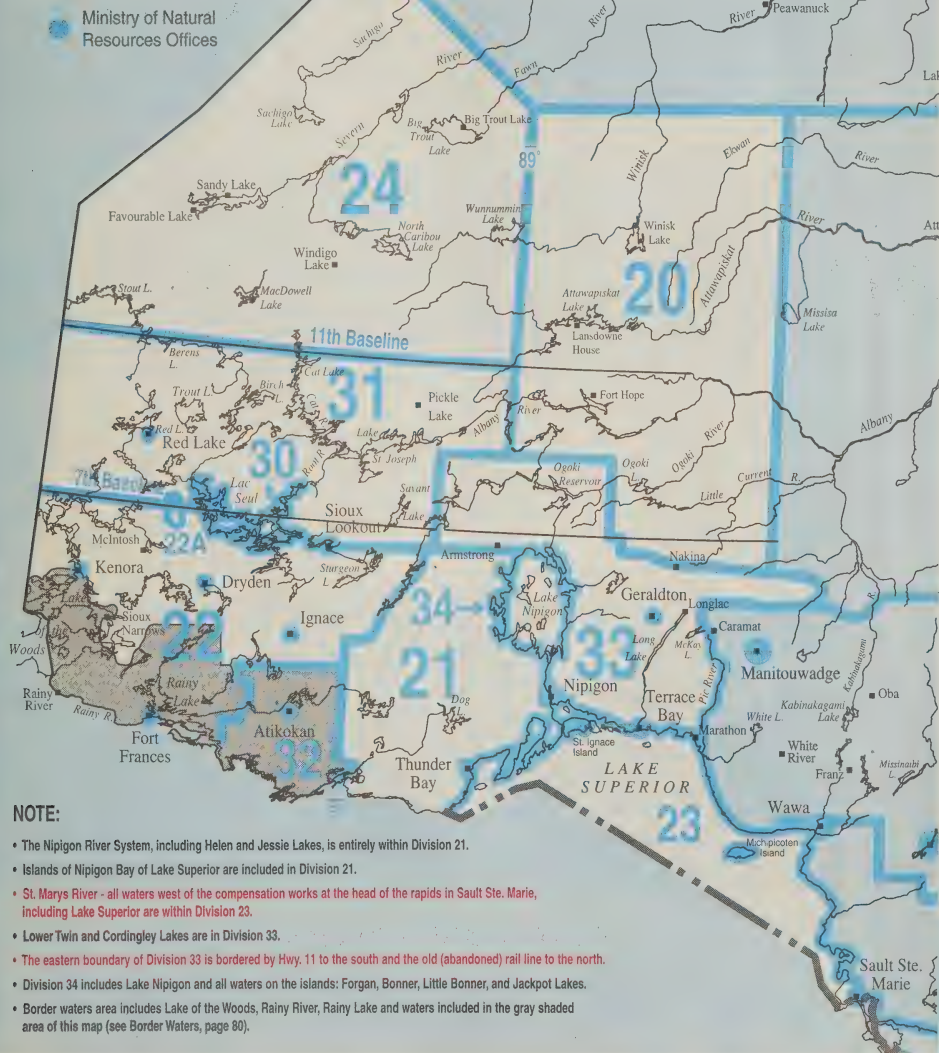

**NOTE: Non-residents camping on Crown lands must observe Conservation licence limits, except in the Border Waters Area. See Regulations for Border Waters on page 78.**

# Northwestern Ontario - Map E

Includes Divisions 20,21,22,22A,23,24,30,31,32,33 and 34

For map specific regulations check the Division/Species Table and Exceptions to the General Regulations for this map area on the following pages.

*Note: Species NOT listed above (except for bait-fish) generally have a year round open season and no catch and possession limits although seasons and limits for other species may be in place in some areas. Check in the Exceptions to the General Regulations or with the local MNR office. For information on bait-fish restrictions, see page 6.*

#### Size Limits:

Unless otherwise stated, the length referred to is total length. (see page 6).  
Size restrictions listed above apply to both Sport Fishing and Conservation licences.  
Sturgeon are measured differently from other fish (see page 6).

#### Daily Catch and Possession Limits:

Daily catch and possession limits will depend on the type of fishing licence you hold, the species and where they are caught and in some cases the size of fish.

The catch limit is the number of fish you are allowed to catch and keep in one day. The possession limit is the number you are allowed to have in your possession on hand, in cold storage, in transit, etc. Possession limits are the same as one day's catch limit except where otherwise specified.

**Shore Meals** - Fish caught that day and eaten are counted as part of your daily catch limit.

#### † Catch and Possession Limits for Salmon and Trout COMBINED

(Not exceeding individual species limits where otherwise stated)

- S • Lake Superior (Div. 23) - five (5) salmon and trout combined but not more than three (3) may be lake trout, splake and brook trout combined.
- All other Map E Divisions (20-22, 22A, 24 and 30-34) - five (5) salmon and trout combined.
- C • Two (2) in one day with not more than one (1) lake trout.

**Non-Residents of Canada require an Ontario Non-resident Fishing Licence (see page 4) to fish on the Ontario side of the International Border.**

## Regulations for Border Waters

### Licences for Provincial Border Waters

Ontario-Manitoba Border: You may fish in the following lakes with either an Ontario or a Manitoba fishing licence: Div. 22 - Davidson, High, Mantario, and Ryerson Lakes; Div. 24 - Moar Lake; Div. 31 - Frances and Garner Lakes.

### International Border Waters

New fishing regulations affecting non-residents of Canada came into effect in November of 1999 for the international border waters area in northwestern Ontario. The international border waters includes Lake of the Woods, Obabikun and Cul de Sac Lakes, Rainy River, Rainy Lake, and all other waters included in the blue shaded area on the map below.

The changes affect the number of walleye, sauger and lake trout that non-residents can catch and retain in one day and the total number that can be possessed at any time. For all other species, non-residents should refer to the catch and possession limits shown on the Division/Species Tables and the Exceptions to the General Regulations.

All non-residents of Canada need to be aware of the following:

- the changes affect all non-residents of Canada regardless of whether you are staying overnight in Canada or not;
- non-residents of Canada are no longer required to have proof of accommodation or a Border Water Conservation Tag to retain fish;
- non-residents of Canada require an Ontario Non-Resident Sport Fishing Licence or an Ontario Non-Resident Conservation Fishing Licence to fish on the Ontario side of the International Border;
- catch and possession limits for walleye, sauger, and lake trout are affected by the new regulations (see details in the table).

**NOTE:** Always check the Exceptions to the General Regulations on pages 82 to 90 for additional regulations specific to the water body you are fishing on.

# Open Season and Limits for Border Waters Area

BORDER WATERS AREA	Walleye and Sauger (or any combination)		Lake Trout	
	Non-Resident Sport Fishing Licence	Non-Resident Conservation Fishing Licence	Non-Resident Sport Fishing Licence	Non-Resident Conservation Fishing Licence

## General Notes

- Non-residents camping on Crown land in Northwestern Ontario, except for the border waters areas, must observe Conservation Licence Limits.
- Div. 34 - you may not possess live lake trout or brook trout.
- A CITES permit is required to export Sturgeon from Canada, see page 6.

## Bait and Gear Restrictions

- You may not use or possess live fish for bait in:
  - Div. 24;
  - Certain waters of the territorial districts of Kenora and Thunder Bay.  
Check with the local MNR office for specific details.
  - Quetico Provincial Park.
- Div. 34:
  - when angling through the ice, artificial lures must be used.
  - barbless hooks must be used all year, on all gear.
  - no person shall possess or use stringers or live holding pens.
- It is illegal to possess live or dead smelt while recreational fishing in Divs. 22, 22A, 24, 30, 31 and 32.

## Additional Fishing Opportunities

**Aurora Trout:** The following lake in Division 33 is open from August 1 - October 15 in 2001 only.

- Borealis Lake

Catch and possession limit of one (1) in this lake only. Conservation licence limit of zero (0).

**Note:** Live fish may not be used as bait or possessed for use as bait in this lake.

Trapper Lake (48°29'N., 89°47'W).	21	Fish sanctuary - closed all year.
Trout Lake (48°17'N., 92°21'W.) - between Little Vermilion Lake and Lac la Croix.	32	Fish sanctuary - no fishing from Jan. 1 - May 31 & Oct. 1 - Dec. 31 Nonresidents fishing in the border waters area, refer to page 78.
Trout River (49°01'N., 92°53'W) from the falls of Sakewie Lake to Otukamamoon Lake.	22	Fish sanctuary - no fishing from Apr. 14 - June 16 (3rd Sat.). Nonresidents fishing in the border waters area, refer to page 78.
Trouffly Lake.	20	Lake trout - not more than one (1) greater than 56 cm (22 in.) in length.
Troulaker River - from the top of Whitefish Falls to a point 2 km (1.2 mi.) downstream where the river intersects latitude 50°52'N.	31	Fish sanctuary - no fishing from Apr. 15 - May 31.
Turtle Lake.	32	Walleye closed all year. Nonresidents fishing in the border waters area, refer to page 78.
Unexpected Lake (50°30'N., 93°52'W).	31	Muskellunge minimum length of 101.6 cm (40 in.).
Unnamed Creek - at the south end of Kagiogano Lake in a bay east of the southernmost narrows, from the first obstruction to fish to 200 m (656 ft.) into Kagiogano Lake.	33	Fish sanctuary - no fishing from Mar. 15 - June 15.
Unnamed Creek [500 m (1,640 ft.) south of Kagiogano River Inlet] at Kagiogano Lake, south end of lake from first obstruction to 200 m (656 ft.) out from creek mouth.	33	Fish sanctuary - no fishing from Mar. 15 - June 15.
Unnamed Lake (49°56'N., 94°18'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).

Waters of Northwestern Ontario (Map E)	Div.	Exceptions
Unnamed Lake (49°57'N, 94°19'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (49°58'N, 94°16'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (50°00'N, 93°58'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (50°02'N, 93°52'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (50°07'N, 93°56'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (50°29'N, 91°49'W).	31	Fish sanctuary - no fishing from Jan. 1 - Feb. 28 (last day) & Apr. 1 - Dec. 31.
Unnamed Lake (Clear) (50°33'N, 93°33'W).	31	Muskellunge minimum length of 101.6 cm (40 in.).
Unnamed Lake (Mary's or Norman's) (50°02'N, 93°57'W).	22	See Mary's (Norman) Lake.
Unnamed Lake (Plum) (49°47'N, 94°14'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (Ronny) (49°58'N, 94°16'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (Terrier) (50°05'N, 93°56'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Unnamed Lake (T-F1-11 or Mile 40) (50°19'N, 91°20'W).	31	Splake open from Jan. 1 - Dec. 24 & Dec. 26 - Dec. 31.
Upper Roslyn Lake (49°03'N, 86°37'W).	33	Fish sanctuary - closed all year.
Upper Twin Lake (Pete's Bay).	33	Fish sanctuary - no fishing from May 19 (3rd Sat.) - May 31.
Van Lake.	22	Walleye closed all year.
Vedette Lake.	22	Walleye closed all year.
Vermilion River and tributaries between Elbow Lake and Expanse Lake.	31	Fish sanctuary - no fishing from Apr. 15 - June 5.
Violet Lake.	22	Walleye open from Jan. 1 - Mar. 31 & June 1 - Aug. 31 (during daylight hours only) & Sept. 1 - Dec. 31.
Wababimiga Lake (50°20'N, 92°44'W).	20	Walleye closed until May 20, 2005.
Wabigoon Lake (49°44'N, 86°23'W).	22	Muskellunge minimum length of 137.2 cm (54 in.).
Wabigoon Lake - 100 m (328 ft.) from Christie Island - Zealand Twp.	22	Fish sanctuary - no fishing from Apr. 1 - May 31. Walleye open from Jan. 1 - Mar. 31 & June 1 - Dec. 31.
Wabigoon River - Snake Bay Road to the Wabigoon Lake Indian Reserve - Satterly Twp.	22	Fish sanctuary - no fishing from Apr. 1 - May 31. Walleye open from Jan. 1 - Mar. 31 & June 1 - Dec. 31.
Wabinoash Bay, Lake Nipigon.	34	Walleye and/or sauger catch and possession limit two (2), not more than one (1) greater than 46 cm (18.1 in.) in length.
Watcomb Lake (49°51'N, 91°19'W).	22	Walleye catch and possession limit two (2), not more than one (1) greater than 46 cm (18.1 in.) in length.
Watershed Lake (48°32'N, 90°32'W).	21	Fish sanctuary - no fishing from Jan. 1 - May 25 (Fri. before 4th Sat.) & Oct. 1 - Dec. 31.
Weeswille Lake (50°06'N, 87°56'W).	33	Brook trout open from Apr. 28 (last Sat.) - Sept. 3 (Labour Day).
Wegg Lake (50°34'N, 93°35'W).	31	Muskellunge minimum length of 101.6 cm (40 in.).
Weikwabinow River - between Marks Lake and Weikwabinow Lake.	21	Fish sanctuary - no fishing from Apr. 1 - May 31.
Weikwabinow River - from Mark's Lake upstream to the Weikwabinow Lake Road.	21	Fish sanctuary - no fishing from Apr. 1 - May 31.
Weikwabinow River - from Trafalgar Bay on Northern Light extending upstream to its confluence with Nelson Creek, including the unnamed lake known locally as Lily Lake.	21	Fish sanctuary - no fishing from Apr. 1 - May 31.
Weld Lake - Pipestone Chain (49°02'N, 93°41'W).	22	Muskellunge minimum length of 121.9 cm (48 in.).
Wholen Lake.	22	Walleye closed all year.
White Otter Lake (49°07'N, 91°52'W).	33	Fish sanctuary - no fishing from May 15 - June 15. Nonresidents fishing in the border waters area, refer to page 78.
Whiteass Lake (51°11'N, 94°03'W).	31	Fish sanctuary - closed all year.
Whitefish Lake (48°13'N, 90°00'W).	21	Yellow perch catch and possession limit of one hundred (100).
Whiterock Lake (49°51'N, 91°15'W).	22	Walleye catch limit zero (0) (catch & release only).
Whitney Lake (49°57'N, 93°55'W).	22	Muskellunge minimum length of 91.4 cm (36 in.).
Wilcox Lake (50°31'N, 93°47'W).	31	Muskellunge minimum length of 101.6 cm (40 in.).
Wild Potato Lake.	22	No person shall possess more fish of any species on board the vessel than the daily fishing quota for that species of fish in the waters where the person is fishing, regardless of where the fish were caught. Walleye and sauger catch and possession limit of four (4), walleye not more than one (1) over 70 cm (27.5 in.), none under 35 cm (13.8 in.) or between 45 - 70 cm (17.7 - 27.5 in.) in length. Muskellunge minimum length of 121.9 cm (48 in.). Nonresidents fishing in the border waters area, refer to page 78.
Wilray Lake (48°29'N, 89°47'W).	21	Fish sanctuary - closed all year.
Winnipeg River System in its entirety - from Norman Dam at Kenora to the Whitedog Dam including Big Sand Lake (50°08'N, 94°38'W), Gunn Lake (49°58'N, 94°39'W), Little Sand Lake (50°03'N, 94°42'W), Lost Lake (50°01'N, 94°39'W), MacFarlane River to the Eva Lake Dam, Middle Lake (49°46'N, 94°37'W), Muriel Lake (49°49'N, 94°41'W), Pital Lake (50°00'N, 94°43'W), and Roughrock Lake (50°06'N, 94°46'W).	22	Muskellunge minimum length of 137.2 cm (54 in.).
Winnipeg River System - from Norman Dam to the Manitoba Border, excluding Muriel Lake and Middle Lake.	22	Walleye open from Jan. 1 - Mar. 14 & May 19 (3rd Sat.) - Dec. 31.
Winnipeg River (west branch) - from Norman Dam to westerly tip of Tunnel Island and northerly point of Patent Property A-16.	22	Fish sanctuary - no fishing from Apr. 1 - May 31.
Wylie Lake.	33	Fish sanctuary - closed all year 2001 and 2002. Specific walleye restrictions will apply in 2003. Barbless hooks must be used at all times.
Young Lake (49°51'N, 91°13'W).	22	Walleye catch limit zero (0) - catch & release only.
Yucca, Grehon, Little Pic and Sun Lakes.	33	Lake trout aggregate catch limit of one (1) for these lakes.
Zeevel Lake - including the Possemin River upstream to 300 m (984 ft.) above the Musselwhite Mine Road.	24	Fish sanctuary - closed all year.

# Ministry of Natural Resources Offices

If you are not sure whether you can fish at a certain time and place, or if you have any questions about the regulations, contact:

- the MNR office nearest to where you plan to fish,
- the Natural Resources Information Centre  
General Inquiry 1-800-667-1940  
French Inquiry 1-800-667-1840

# Fish Identification

Here are the types of fish that anglers are likely to catch in Ontario's lakes and streams. Information is provided on the following:

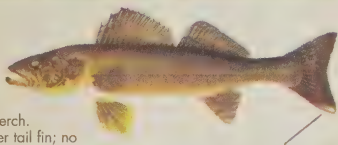

- L:** length.
- D:** distribution/habitat.
- S:** similar fish.
- K:** key identifying characteristics that separate them from those similar fish.

The Ontario record for many of these species can be found on pg. 50.

The fish illustrations were drawn by Rebecca Brebner, with the exception of the muskellunge and the sturgeon, which were drawn by Andreas Radman of the Ontario Ministry of Environment, and the Great Lakes phase of the rainbow and brown trout which were drawn by Virgil Beck and provided by the Wisconsin Department of Natural Resources. These illustrations were redrawn using original fish illustrations from two publications: Bulletin 184, Fisheries Research Board of Canada - "Freshwater Fishes of Canada" by Scott and Crossman, and "Fish of Ontario" (poster) distributed by the Ministry of Natural Resources.

## Walleye

- L:** 25 - 85 cm (10 - 33 in.).
- D:** lakes and rivers throughout most of Ontario.
- S:** sauger, yellow perch.
- K:** white tip on lower tail fin; no distinct blotches or bands on adults.

## Sauger

- L:** 25 - 41 cm (10 - 16 in.).
- D:** large, shallow, turbid waters throughout Ontario.
- S:** walleye, yellow perch.
- K:** lacks white tip on lower tail fin; distinct blotches or bands on adults; spots on dorsal fin.

## Yellow Perch

- L:** 15 - 30 cm (6 - 12 in.).
- D:** clear waters with some vegetation throughout Ontario; often school.
- S:** walleye, sauger, white perch.
- K:** 6 to 8 dark, vertical bands on sides, alternating with light yellow to yellow-green.

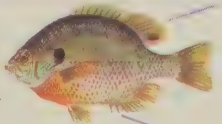

## Pumpkinseed

- L:** 18 - 23 cm (7 - 9 in.).
- D:** clear, shallow, weedy waters north to Temagami.
- S:** rock bass, bluegill.
- K:** 3 anal fin spines; wavy, blue-green stripes on sides of head; ear flap with orange or red spot.

## Bluegill

- L:** 15 - 30 cm (6 - 12 in.).
- D:** warm, vegetated, still waters throughout southern Ontario.
- S:** rock bass, pumpkinseed.
- K:** 3 anal fin spines; black spot at rear end of dorsal fin; ear flap black.

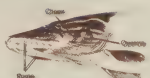

## Northern Pike

- L:** 45 - 100 cm (18 - 39 in.).
- D:** quiet, vegetated waters throughout Ontario.
- S:** muskellunge.
- K:** light yellowish spots on dark green background; tips of tail fin more rounded than muskellunge; see also head close-up below.

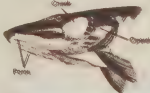

## Northern Pike

Cheek fully scaled, upper half of opercle only scaled, 10 pores on undersides of lower jaw.

## Muskellunge

Cheek and opercle both scaled only on upper half, 12-18 pores on undersides of lower jaw.

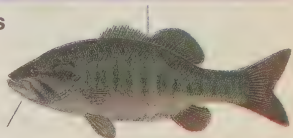

## Muskellunge

- L:** 71 - 137 cm (28 - 54 in.).
- D:** discontinuous in southern and near northeastern Ontario, and the Lake of the Woods/Rainy River area.
- S:** northern pike.
- K:** dark vertical bands on light background, at times spotted or clear; tips of tail fin more pointed than northern pike; see also head close-up above.

## Smallmouth Bass

- L:** 25 - 50 cm (10 - 20 in.).
- D:** clear, rocky waters with little vegetation from southern Ontario to Timiskaming and northwestern Ontario.
- S:** largemouth bass.
- K:** upper jaw does not extend beyond eye; shallow notch between dorsal fins; body often with dark, broken bars.

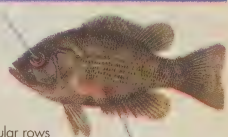

## Largemouth Bass

- L:** 25 - 55 cm (10 - 22 in.).
- D:** warm, weedy, slow or still waters primarily in southern Ontario.
- S:** smallmouth bass, rock bass.
- K:** upper jaw extends beyond eye; deep notch between dorsal fins; body often with a broken horizontal stripe.

## Rock Bass

- L:** 15 - 20 cm (6 - 8 in.).
- D:** warm, slow or still shallows with rocky bottoms, northward to Lake Abitibi.
- S:** pumpkinseed, bluegill.
- K:** large, red eye; six anal fin spines; regular rows of spots on the side in adults.

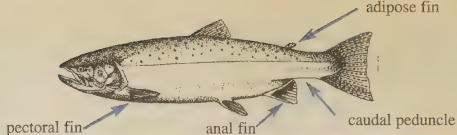

## White Sucker

- L:** 30 - 50 cm (12 - 20 in.).
- D:** warm, shallow lakes and tributary rivers across Ontario.
- S:** other suckers (e.g. redbreast).
- K:** torpedo-shaped; round in cross-section; scales smaller than redbreast sucker.

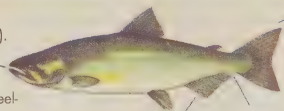

## Salmon and Trout Identification

The following features are useful in identifying salmon and trout:

### Chinook Salmon

- L:** 30 - 100 cm (12 - 39 in.).
- D:** found in all Great Lakes and some tributaries.
- S:** coho, Atlantic and pink salmon, rainbow trout (steelhead), brown trout.
- K:** black mouth and black gums; tail entirely spotted; leading ray on anal fin extends 1/3 the length of the fin; short, narrow caudal peduncle.

### Coho Salmon

- L:** 30 - 75 cm (12 - 30 in.).
- D:** found in all Great Lakes and some tributaries.
- S:** chinook, Atlantic and pink salmon, rainbow trout (steelhead), brown trout.
- K:** dark mouth and light grey gums; tail spotted on upper lobe only; leading ray on anal fin extends 1/2 - 2/3 the length of the fin; short, narrow caudal peduncle.

### Atlantic Salmon

- L:** 25 - 70 cm (10 - 28 in.).
- D:** reintroduced to Lake Ontario; occasionally in upper Great Lakes and some tributaries, and Trout Lake near North Bay.
- S:** chinook, coho and pink salmon, rainbow trout (steelhead), brown trout.
- K:** white mouth and gums; few large, black spots on gill cover; no spots on tail; leading ray on anal fin extends the length of the fin; long, narrow caudal peduncle; dark-coloured pectoral fins.

### Pink Salmon

- L:** to 46 cm (18 in.).
- D:** found in all Great Lakes.
- S:** chinook, coho and Atlantic salmon, rainbow trout (steelhead), lake trout.
- K:** large black spots on back and tail fin, but not on dorsal fin; forked tail; leading ray on anal fin extends 1/3 - 1/2 the length of the fin; narrow caudal peduncle.

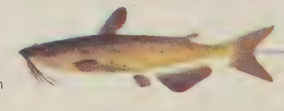

### Lake Trout

- L:** 30 - 80 cm (12 - 31 in.).
- D:** cold waters of deep lakes throughout much of Ontario.
- S:** brook trout.
- K:** light wormlike markings and spots on dark background, none red; deeply forked tail; white leading edge on lower fins, but no black line.

### Channel Catfish

- L:** 36 - 53 cm (14 - 21 in.).
- D:** Great Lakes and larger lakes and rivers south of the French River and from Lake Nipigon west.
- S:** brown bullhead.
- K:** deeply forked tail.

### Rainbow Trout/Great Lakes (Steelhead)

- L:** 35 - 60 cm (14 - 24 in.).
- D:** found in all Great Lakes and many tributaries.
- S:** chinook, coho, pink and Atlantic salmon; brown trout.
- K:** white mouth and gums; body silver with dark spots; spots all over tail in radiating rows; leading anal fin ray extends the length of the fin; long, stocky caudal peduncle.

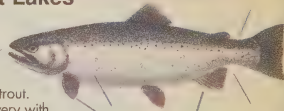

### Rainbow Trout/Inland

- L:** 15 - 40 cm (6 - 16 in.).
- D:** south of a line from Kenora to Kesagami Lake.
- S:** brook and brown trout; juvenile Atlantic salmon.
- K:** many small black spots on body; spots over tail in radiating rows; pink lateral stripe; leading anal fin ray extends the length of the fin; long, stocky caudal peduncle.

### Brown Trout/Great Lakes

- L:** 35 - 60 cm (14 - 24 in.).
- D:** found in all Great Lakes and some tributaries.
- S:** chinook, coho, pink and Atlantic salmon; rainbow trout.
- K:** white mouth and gums; silvery with dark spots on body; only occasional vague spots on tail; only salmon or trout with orange on adipose fin; leading anal fin ray extends the length of the fin; short, stocky caudal peduncle; light-coloured pectoral fins.

### Brown Trout/Inland

- L:** 20 - 40 cm (8 - 16 in.).
- D:** occasional south of the French River, mostly in Great Lakes tributaries.
- S:** rainbow and brook trout; juvenile Atlantic salmon.
- K:** large black, blue or red spots on body, often surrounded by lighter ring; tail with few spots; only salmon or trout with orange on adipose fin; leading anal fin ray extends the length of the fin; short, stocky caudal peduncle.

### Brook Trout

- L:** 15 - 40 cm (6 - 16 in.).
- D:** cold, clear streams, small lakes, Lake Superior.
- S:** lake trout.
- K:** light wormlike markings and spots on dark background, some red and blue; square tail; white leading edge on lower fins, set off by black line.

### Brown Bullhead

- L:** 20 - 36 cm (8 - 14 in.).
- D:** warmer, slow waters throughout southern Ontario and generally south of highways 11 & 17 in the north.
- S:** channel catfish.
- K:** square tail.

## White Bass

- L:** 20 - 30 cm (8 - 12 in.).  
**D:** clear water near rock reefs and sand bars in lower Great Lakes area.  
**S:** white perch.  
**K:** dark spots in horizontal lines, often faint and irregular; second anal spine distinctly shorter than third.

## White Perch

- L:** 15 - 25 cm (6 - 10 in.).  
**D:** Lakes Ontario and Erie, lower Niagara River and Welland Canal.  
**S:** white bass, yellow perch.  
**K:** colour variable, but spots or stripes not obvious; second and third anal spine roughly equal in length.

## Lake Whitefish

- L:** 30 - 65 cm (12 - 26 in.).  
**D:** Great Lakes and deep, cold, inland lakes across Ontario.  
**S:** cisco, round whitefish.  
**K:** mouth overhanging by snout (see below); body oval in cross-section.

Profiles of whitefish and herring showing differences due to position of snout or upper jaw.

### Lake Whitefish

- A.** The mouth is overhanging by the snout or upper jaw; rounded profile.

### Cisco (Lake Herring)

- B.** The mouth is not overhanging by the snout; pointed profile.

## Cisco

- L:** 20 - 30 cm (8 - 12 in.).  
**D:** cold waters from Great Lakes to Hudson Bay  
**S:** lake and round whitefish, rainbow smelt  
**K:** mouth not overhanging by snout (see above); mouth ends before middle of eye.

## Rainbow Smelt

- L:** 15 - 25 cm (6 - 10 in.).  
**D:** throughout Great Lakes area, including some inland lakes.  
**S:** cisco.  
**K:** mouth extends beyond centre of the eye; tongue with prominent teeth.

## Carp

- L:** 30 - 75 cm (12 - 30 in.).  
**D:** shallow, warm waters, primarily in southern Ontario.  
**S:** freshwater drum.  
**K:** "whiskers" beside mouth; one dorsal spine.

## Freshwater Drum

- L:** 45 - 50 cm (18 - 20 in.).  
**D:** large, shallow waterbodies with mud or sandy bottoms, mostly in lower Great Lakes.  
**S:** carp.  
**K:** no "whiskers"; 8-9 dorsal spines.

## White Crappie

- L:** 20 - 30 cm (8 - 12 in.).  
**D:** mouths of tributary streams or weedy, sheltered bays in lower Great Lakes area.  
**S:** black crappie.  
**K:** six dorsal fin spines; 6 or 7 anal fin spines; sides with faint bars.

## Black Crappie

- L:** 18 - 25 cm (7 - 10 in.).  
**D:** clear, weedy lakes and slow rivers primarily Great Lakes, south central near northeast and parts of northwestern Ontario.  
**S:** white crappie.  
**K:** 7-8 dorsal fin spines; 6 or 7 anal fin spines; irregular mosaic of distinct black blotches.

## Goldeye

- L:** 25 - 38 cm (10 - 15 in.).  
**D:** parts of northeastern and northwestern Ontario, often in swift, silty waters.  
**S:** mooneye.  
**K:** iris of eye large and bright golden, forward scales with golden luster.

## Mooneye

- L:** 25 - 30 cm (10 - 12 in.).  
**D:** clear rivers and shallow lake waters, southern as well as parts of northeastern and northwestern Ontario.  
**S:** goldeye.  
**K:** iris of eye large and golden, but not as bright as goldeye; scales silvery.

## Sturgeon

- L:** 90 - 145 cm (3 - 5 ft.).  
**D:** larger rivers and lakes, usually less than 30 feet deep.  
**S:** none.  
**K:** underslung mouth; whiskers; bony plates on sides.

## Burbot (Ling)

- L:** to 38 cm (15 in.).  
**D:** cool waters of lakes and rivers throughout Ontario.  
**S:** bowfin.  
**K:** single "whisker" on tip of chin; long, thin anal fin.

## Bowfin

- L:** 46 - 61 cm (18 - 24 in.).  
**D:** swampy, vegetated bays of warm lakes and rivers, primarily in southern Ontario.  
**S:** burbot.  
**K:** no "whiskers"; anal fin short but deep.

# Working Together to Ensure Great Fishing

**A**lthough the Great Lakes have been around for 14,000 years, they continue to change and evolve, often in unpredictable ways. Changing land use, invasion of exotic species such as the sea lamprey and zebra mussel, climate change, and commercial and recreational activities have all contributed to changes in water quality, fish habitat and fish communities. With more than 150 fish species in the Great Lakes and at least 139 non-native aquatic species including plants, algae, invertebrates and fish, management of this resource is a monumental undertaking.

To meet this challenge, the Ontario Government works in cooperation with other Canadian and American government and non-government

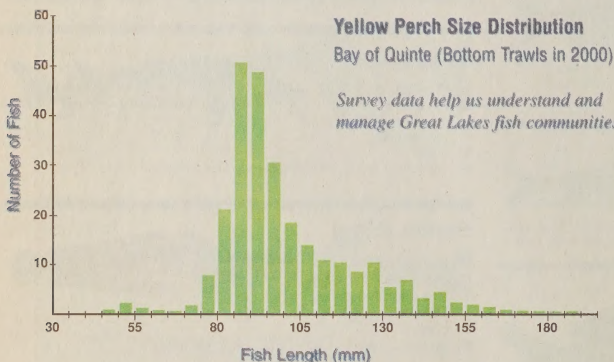

agencies, united by a common goal developed through the Great Lakes Fishery Commission:

**To provide sustainable and diverse fisheries and a healthy Great Lakes ecosystem.**

The Ministry of Natural Resources has four Great Lakes Management Units. Staff from these units conduct fisheries research and assess Great Lakes fish communities. Each Great Lakes Unit works in partnership with their local stakeholders through advisory committees, task groups, stewardship councils and public meetings. Scientific data has been collected from anglers and commercial fishermen on the Great Lakes for over 50 years.

*Thousands of fish samples from MNR surveys are collected, weighed, measured and aged each year.*

Fishing regulations are one of the tools we have to manage Ontario's fisheries. Setting catch and size limits and fishing seasons is important for protecting and maintaining healthy fish populations.

Five million fish are stocked into the Great Lakes each year by the province of Ontario including: lake trout, rainbow trout, chinook salmon, coho salmon, brown trout and Atlantic salmon. The Ontario Government's stocking program supports the rehabilitation of native species and provides additional fishing opportunities.

Working together, fisheries managers, anglers and other stakeholders can ensure that the Great Lakes continue to provide some of the best angling opportunities in the world.

For more information about the Great Lakes, visit these websites:

Great Lakes Fishery Commission (<http://www.glfc.org/>)

# Fishing Any Way You Like It!

**T**roll for salmon, trout or muskie, cast for bass and pike, still fish for yellow perch or panfish, flyfish for rainbow and brown trout, fish anyway you like on the Great Lakes!

No matter what type of gear you have or what type of fishing experience you want, Ontario's Great Lakes are a wonderful place to go fishing. Home to more than 150 fish species, the Great Lakes offer one of the most diverse freshwater fisheries in the world. There are thousands of kilometres of coastline to explore.

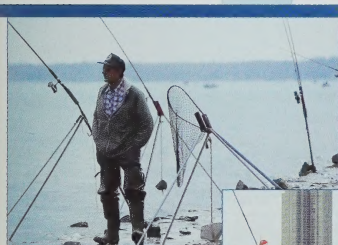

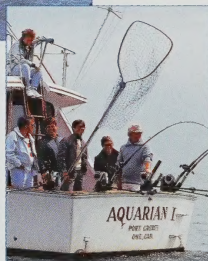

Ontario

**Over 30 million fish are caught by the hundreds of thousands of anglers who fish on the Great Lakes each year.**

Your fishing licence dollars help support the research, assessment, stocking, fisheries rehabilitation and enforcement conducted by MNR fisheries scientists, biologists, technicians and Conservation Officers. This on-going effort ensures that the quality and diversity of recreational fishing opportunities on the Great Lakes will continue to be enjoyed by future generations.

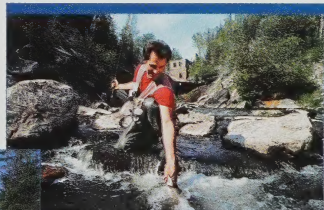

*Fish with downriggers from a charter boat.*

*Surf cast from the shoreline.*

*Still fish off the pier just down the block.*

*Flyfish for trout in a Great Lakes tributary.*

*Fish through the ice in mid-winter.*

# MNR Fish Hatcheries To Expand Capacity

## 10 Million Fish Stocked by 2003

An increase of 1.5 million from 8.5 million in 1999

### **\$2.5 Million Dollar Expansion of White Lake Fish Culture Station Completed**

- Production capacity increased from 600,000 to one million fish per year.
- Increased production of advanced fingerling walleye.

### **\$6.5 Million Dollar Renovation of Chatsworth Fish Culture Station**

- Chatsworth's existing facilities date back to the 1950s.
- The new facility will increase fish production and brood stock holding capacity.
- Specialized quarantine facilities will reduce the risk of infecting the hatchery with diseases from outside sources.

3 1761 11547710 1

The newer technology installed in both stations will result in more efficient use of available water resources and better environmental conditions for rearing fish.

**Increased fish production at Ministry of Natural Resources fish culture stations are part of Ontario's Living Legacy.**
